QUESTION 1

What are the disadvantages of using delete vectors to identify records marked for deletion? (Select two.)

A. Delete vectors are stored in a different location, minimizing storage impact.

B. Delete vectors rewrites files, causing additional overhead.

C. Delete vectors must be recognized during the query process to remove records marked for deletion from the result set, slowing down the processing of a query.

D. Delete vectors do not instantly reclaim space used by deleted records.

E. Delete vectors must be maintained forever.

Correct Answer: CD

QUESTION 2

Which methods are available to optimize a projection for delete processing? (Select two.)

A. Add a low cardinality column to the beginning of all projections on the source table.

B. Add a high cardinality column to the end of all projections on the source table.

C. Add all columns used as delete predicates to all projections on the source table.

D. Add a low cardinality column to the end of all projections on the source table.

E. Add a high cardinality column to the beginning of all projections on the source table.

Correct Answer: AC

QUESTION 3

What is the process to add hosts to an existing cluster? (Select two.)

A. Restart spread on all hosts in the cluster.

B. Recreate all projections on the new hosts.

C. Update spread.conf on the new host(s) only.

D. Install Vertica on the new hosts.

E. Redistribute data to the new host(s).

Correct Answer: AE

QUESTION 4

What are features of using the Vertica backup script? (Select two.)

A. It uses a lightweight locking protocol, stopping data loading for a brief period of time

B. It can be run remotely via the Management Console

C. It enables recovery by database, node, or table

D. It enables backup of the entire database only

E. It can be run while the database is not running.

Correct Answer: BC

QUESTION 5

What are the standard clauses in an analytics query?

A. It includes a PARTITION clause, with required over_clause, order_clause, and frame_clause.

B. It includes an OVER clause, with required partition_clause, order_clause, and frame_clause

C. It includes an OVER clause, with optional partition_clause, order_clause, and frame_clause.

D. It includes a PARTITION clause, with optional over_clause, order_clause, and frame clause.

Correct Answer: B
