QUESTION 1

Which of the following statements about an External Input is true?

- A. Has the primary intent to maintain one or more ILFs
- B. An elementary process to hold data or control information from outside the boundary
- C. Has the primary intent to alter the behavior of a transaction
- D. Has the primary intent to reference one or more EIFs

Correct Answer: A

QUESTION 2

During the requirements phase for a new application, the user identified 3 logical groups of data. During the construction phase, our database technicians combined the 3 logical groups of data into 1 physical table. How many ILFs would be counted?

- A. 3 ILFs during requirements phase, 3 ILFs during construction phase
- B. 3 ILFs during requirements phase, 1 ILFs during construction phase
- C. 1ILF during requirements phase, 1 ILFs during construction phase
- D. 1 ILF during requirements phase, 0 ILFs during construction phase

Correct Answer: A

QUESTION 3

Which of the following statements regarding Function Point Analysis (FPA) is true?

- A. FPA measures software by quantifying the tasks and services (i.e. functionality) that the software provides to the user based primarily on logical design
- B. FPA measures software by quantifying software functionality based on architectural attributes
- C. FPA is a standardized method for measuring software development from the developer's point of view
- D. FPA is a standardized method for measuring software maintenance based on the technology used for implementation

Correct Answer: A

QUESTION 4

An application originally valued at 327 FP was enhanced. The enhancement added 3 low EQs, 2 low EIs, 2 high EOs,

and changed 3 low ILFs. What is the enhancement project functional size?

- A. 29
- B. 50
- C. 356
- D. 377

Correct Answer: B

QUESTION 5

Which of the following types of processing logic is (are) mandatory for an elementary process to be classified as an EQ?

- A. At least one ILF or EIF is referenced
- B. Information is prepared and then presented outside the boundary
- C. Data or control information is retrieved
- D. All of the above

Correct Answer: D
