QUESTION 1

You have two interfaces in ZoneA and traffic is passing without any policy configured. You want to control the traffic between the two interfaces. Which two actions will allow this to happen? (Choose two.)

- A. Configure interzone blocking on ZoneA and create a policy in that zone to control the traffic.
- B. Configure intrazone blocking on ZoneA and create a policy in that zone to control the traffic.
- C. Move one of the interfaces to a different zone and create an interzone policy to control the traffic.
- D. Move one of the interfaces to a different zone and create an intrazone policy to control the traffic.

Correct Answer: BC

QUESTION 2

You manage a ScreenOS device. A user complains that the FTP download speed is slow. You suspect a cable or an interface might be the problem. Which command provides interface error information?

- A. show counter flow interface
- B. get counter flow interface
- C. show counter statistics interface
- D. get counter statistics interface

Correct Answer: D

QUESTION 3

An SSG5 has a default configuration loaded on it. Which two statements are correct? (Choose two.)

- A. Intrazone blocking is enabled for the trust zone.
- B. Intrazone blocking is disabled for the trust zone.
- C. Intrazone blocking is enabled for the untrust zone.
- D. Intrazone blocking is disabled for the untrust zone.

Correct Answer: BC

QUESTION 4

Which two statements are correct about internal antivirus scanning? (Choose two.)

- A. It includes a predefined file extension list for each protocol.

- B. It allows you to load-balance ICAP scan servers.
- C. It requires you to install a ScreenOS software license.
- D. It provides inbound spyware and phishing protection.

Correct Answer: CD

QUESTION 5

You configure NAT on your ScreenOS device to route the services shown in the exhibit to the internal addresses. Which commands will you use to configure this scenario?

Service	Transport	Virtual Port Number	Actual Port Number	Host IP Address
DNS	TCP, UDP	53	53	10.1.1.3
HTTP	TCP	80	80	10.1.1.4
PCAnywhere	TCP, UDP	5631, 5632	5631, 5632	10.1.1.4
LDAP	TCP, UDP	5983	389	10.1.1.5

- A. ssg5-> set interface ethernet3 vip 1.1.1.3 53 dns 10.1.1.3 ssg5-> set interface ethernet3 vip 1.1.1.3 80 http 10.1.1.4
