### QUESTION 2

Barb is the Lead Developer for the Sales application and the Travel application. Each application is comprised of multiple databases. Within the Applications Navigator, Barb would like to be able to list the databases of the Sales application together, and - separate from the Sales application - list the databases of the Travel application together. How can she do this?

- A. For each application, create a subfolder under the Data folder. Move each set of databases to the appropriate subfolder. Drag each folder onto the Applications Navigator.
- B. Click the Folders icon within the Applications Navigator. Select the option to Create a new Working Set. Name the Working Set "Sales" and select the databases that comprise the Sales application. Perform a similar procedure for the Travel application.
- C. From Domino Designer select Create > Working Set. Specify "Sales" for the name. From the Application Properties of each database of the Sales application, select "Sales" from the Working Set drop-down. Perform a similar procedure for the Travel application.
- D. Edit the Application Properties of each database that comprises the Sales Application. On the Design tab, specify "Sales" for the "Working Set" option. Repeat for each database of the Sales application. Perform a similar procedure for the Travel application.

Correct Answer: B
