QUESTION 1

Which two of the following statements are true regarding Magento configuration scopes? (Choose TWO.)

- A. "Websites" contain "Stores".
- B. A "Store" can be associated with multiple "Websites".
- C. A "Store View" can be associated with multiple "Stores".
- D. A "Store" can be associated with multiple "Store Views".
- E. Multiple "Websites" can share a "Store View".

Correct Answer: AD

QUESTION 2

What is the difference between "display: none" and "visibility: hidden"?

- A. The "display: none" rule removes the element from the DOM. The "visibility: hidden" rule leaves the element in the DOM.
- B. The "display: none" rule leaves the element in the DOM. The "visibility: hidden" rule removes the element from the DOM.
- C. The "display: none" rule removes the space used by the element from the page. The "visibility: hidden" rule reserves space on the page for the element.
- D. The "display: none" rule reserves space on the page for the element. The "visibility: hidden" rule removes the space used by the element from the page.

Correct Answer: C

QUESTION 3

What is the total width of a block-element styled with the following CSS?

```
#example {  
    width: 200px;  
    border: 1px solid #333;  
    margin: 10px;  
    padding: 15px;  
}
```

- A. 200px

B. 202px

C. 222px

D. 232px

Correct Answer: D

QUESTION 4

Which of the following will render the custom content block custom, name to a page based on the native 3columns.phtml template?

- ☐ A.

```
<reference name="root">
    <block type="core/text_list" name="left" as="left" translate="label">
        <block type="core/template" name="custom.name"
            template="page/html/custom.phtml" />
        </block>
    </reference>
```
- ☐ B.

```
<reference name="root">
    <block type="checkout/onepage" name="checkout.onepage"
        template="checkout/onepage.phtml">
        <block type="core/template" name="custom.name"
            template="page/html/custom.phtml" />
        </block>
    </reference>
```
- ☐ C.

```
<reference name="catalog.topnav">
    <block type="core/template" name="custom.name"
        template="page/html/custom.phtml" />
</reference>
```
- ☐ D.

```
<reference name="checkout.cart">
    <block type="core/template" name="custom.name"
        template="page/html/custom.phtml" />
</reference>
```

A. Option A

B. Option B

C. Option C

D. Option D

Correct Answer: A

QUESTION 5

Given the following HTML code, how are the divs "#column1", "#column2", and "#column3" displayed on the page?

```
<style>
  .container { width: 600px; }
  .col { border: 1px solid #000; float: left; width: 200px; }
</style>

<div class="container">
  <div id="column1" class="col"></div>
  <div id="column2" class="col"></div>
  <div id="column3" class="col"></div>
</div>
```

- A. The 3 divs are displayed side-by-side and their borders are adjacent to each other.
- B. The 3 divs are displayed side-by-side; however their borders overlap with each other.
- C. The divs "#column1" and "#column2" are displayed side-by-side. The div "#column3" appears below "#column1".
- D. The divs are displayed on top of one another.

Correct Answer: C
