QUESTION 1

A company uses Microsoft Dynamics CRM 2011. You need to ensure that when the ownership of an account is transferred, only associated user-owned cases that have a status of Open are assigned to the new owner.

Which relationship behavior should you set in the one-to-many (1:N) relationship between accounts and cases?

- A. Cascade All
- B. Cascade None
- C. Cascade Active
- D. Cascade User-Owned

Correct Answer: C

QUESTION 2

In Microsoft Dynamics CRM 2011, which of the following many-to-many (N:N) relationships can you create between entities? (Choose all that apply.)

- A. native
- B. manual
- C. parental
- D. referential

Correct Answer: BA

QUESTION 3

A company uses Microsoft Dynamics CRM 2011. Which of the following chart configurations supports data drill-down?

- A. an imported stacked (comparison) user chart
- B. an imported stacked (comparison) system chart
- C. a chart with a category axis displaying a searchable field
- D. a chart that you are viewing from a list of associated records

Correct Answer: C

QUESTION 4

Which of the following statements about Microsoft Dynamics CRM 2011 audit log management is true?

- A. The CRM System Administrator can delete any unnecessary audit log files.
- B. The CRM System Administrator can set the date ranges for the audit log partitions.
- C. A CRM system job that runs automatically every 30 days creates any required audit log partitions.
- D. Audit log management partition functionality is available for Microsoft SQL Server 2008 Standard Edition.

Correct Answer: C

QUESTION 5

Which of the following statements about entity mapping in Microsoft Dynamics CRM 2011 are true? (Choose all that apply.)

- A. One source field can be mapped to many fields in the target entity.
- B. Mapping keeps data in the source entity synchronized with data in the target entity.
- C. Mapping does not apply if a user creates a new record outside of the context of a parent record.
- D. Mapping maintains a relationship between the source entity and the target entity after a record is created.

Correct Answer: CA
