- A. Simulated, Planned, Released, Finished
- B. Planned, Firm Planned, Released, Finished
- C. Simulated, Planned, Firm Planned, Released, Finished
- D. Simulated, Planned, Firm Planned, Released, Completed

Correct Answer: C

---

#### QUESTION 2

A stockkeeping unit (SKU) can be considered to be a location-specific Item Card. How are SKUs created? Choose the 2 that apply.

- A. Automatically when a new item is added and the Location Mandatory check box is selected in Inventory Setup.
- B. Manually by entering the information directly on a Stockkeeping Unit Card.
- C. For selected locations using the Create Stockkeeping Unit function from an Item Card.
- D. For selected locations using the Create function from the Stockkeeping Unit Card.

Correct Answer: BC

---

#### QUESTION 3

For a production BOM, all of the components are set up to forward flush, and there are no routing link codes. During which activity are the expected components consumed from inventory?

- A. When the production order status is changed to released.
- B. When the Consumption Journal is posted.
- C. When the first operation is posted in the Output Journal.
- D. When the Explode Routing function is executed in the Output Journal.

Correct Answer: A

---

#### QUESTION 4

You are the consultant on a Microsoft Dynamics NAV 2009 implementation. Your client is setting up Item Cards. In the Flushing Method field, the available options are Manual, Forward, and Backward. Your client asks you to explain how material is consumed when forward flushing is selected and routing link codes are not used. What do you provide to

your client?

- A. The Consumption Journal is used to specify how much material is consumed for a production order.
- B. The actual quantity of material is automatically consumed at the finish of a production order.
- C. The expected quantity of material is automatically consumed at the release of a production order.
- D. The expected quantity of material is automatically consumed when the Output Journal is posted.

Correct Answer: C

---

#### QUESTION 5

What activities might be performed using Finished Production Orders? Choose the 3 that apply.

- A. Standard, expected, and actual costs of a production order may be reviewed using the Production Order Statistics window.
- B. Production order ledger entries may be reviewed for information regarding quantity, work centers, and machine centers.
- C. Additional activity may be posted to a finished production order after changing the status to Allow Posting.
- D. In a make-to-order environment, a finished production order may be selected as a template for creating new production orders using the Copy Prod. Order Document function.

Correct Answer: ABD
