QUESTION 1

Which Orion NPM module allows you to create user-experience monitors?

- A. NetFlow Traffic Analyzer
- B. Network Configuration Manager
- C. Application Performance Monitor
- D. IP Address Manager

Correct Answer: C

QUESTION 2

When monitoring the performance of the WAN connection to a remote site, you notice that latency varies from 10 to 1700 milliseconds and that bandwidth utilization is commonly over 90%. Which type of traffic would be the most adversely affected by this situation?

- A. email
- B. SNMP polling
- C. VoIP
- D. Syslog

Correct Answer: C

QUESTION 3

Users complain that access to the Internet is down. You review your network management system (NMS) and find the following:

The core router rebooted last night

Network traffic on your Internet gateway is at 5%.

The configuration on your firewall was just rolled back. The corporate mail server is down.

Which issue should you investigate first?

- A. The core router rebooted last night.
- B. Network traffic on your Internet gateway is at 5%.
- C. The configuration on your firewall was just rolled back.
- D. The corporate mail server is down.

Correct Answer: C

QUESTION 4

You believe that a QoS misconfiguration may be causing poor performance on your network. What should you check to verify that QoS is the root cause?

- A. response and errors
- B. CPU and memory
- C. bandwidth and availability
- D. bandwidth and packet drops

Correct Answer: D

QUESTION 5

Your company has asked you to expand your network management to include a new site with several hundred devices, although you are not sure how many. Using Orion Network Discovery, your top priority is completeness of discovery. Which two Orion discovery settings should you use to achieve your goal? (Choose two.)

- A. exclude any new subnets found during the network discovery
- B. include any new subnets found during the network discovery
- C. include specific IP addresses through a seed file
- D. decrease the overall speed of the discovery process
- E. decrease the number of SNMP retries
- F. increase the overall speed of the discovery process

Correct Answer: BD
