QUESTION 1

You are developing a BusinessWorks process definition which (after a '\\Mapper_A\\' activity has completed) has two independent database updates to perform, one to a SQL 7.0 database and one to an Oracle 8.1 database. What can you do to minimize the elapsed time for this process?

- A. perform the two database JDBC Update activities in parallel
- B. use a JDBC Query activity to present the update statements
- C. use a common JDBC Connection for each JDBC Update activity
- D. perform the two database JDBC Update activities in sequence with no other intervening activities

Correct Answer: A

QUESTION 2

Which is a valid technique for preventing unauthorized users from triggering a process flow?

- A. lock down all process flows using transport specific security mechanisms
- B. lock down the Starter activity at the transport level via transport specific security
- C. supply a User ID and password when logging into a BusinessWorks Process Engine
- D. prevent each BusinessWorks process flow from unauthorized access by assigning a role to it

Correct Answer: B

QUESTION 3

What is the functionality of the BusinessWorks Inspector activity?

- A. writes the process data to stdout or to a file
- B. inspects a previous activity to validate its references
- C. performs a syntax inspection of a process definition
- D. inspects a subprocess call prior to the call for binding errors

Correct Answer: A

QUESTION 4

What are the implications of selecting HTTPS over HTTP or Rendezvous as the transport between a deployed service and TIBCO Administrator?

- A. faster initialization, secure connection
- B. slower initialization, secure connection
- C. faster initialization, non-secure connection
- D. slower initialization, non-secure connection

Correct Answer: B

QUESTION 5

If an FTP server is behind a firewall, which three are required to configure the FTP Connection resource? (Choose three.)

- A. Proxy Port must be provided.
- B. Proxy Host must be provided.
- C. The Firewall parameter must be selected.
- D. A Digital Identity resource must be provided.
- E. A Firewall Shared Configuration must be created and configured.

Correct Answer: ABC
