QUESTION 1

What is a virtual switch used to do? (Choose two.)

- A. Replace physical switches to save money.
- B. Connect VMs to the physical network.
- C. Connect the ESXi OS to the physical network.
- D. Connect to Fibre Channel storage.

Correct Answer: AB

QUESTION 2

What is a scalability challenge that vSphere can address?

- A. Virtual machines require less administration
- B. Servers can be overclocked to provide extra processing speed
- C. CPUs and Memory can be added to servers without an outage
- D. Virtual networks have more capacity than physical networks

Correct Answer: C

QUESTION 3

You are planning to deploy a new VMware environment. The team leader of the networking team has requested the ability to monitor virtual machine traffic in order to maintain the physical network more efficiently. Which option provides this capability?

- A. Create a distributed port group and configure port mirroring
- B. Create a standard port group and use Cisco Discover Protocol (CDP)
- C. Create a standard port group and use Link Layer Discovery Protocol (LLDP)
- D. Create a distributed port group and use Network I/O Control (NIOC)

Correct Answer: A

QUESTION 4

Your organization has a cluster of ESXi hosts that all have local storage devices, including Solid State Drives. You wish to take advantage of this storage for your VMs, but you don't want to sacrifice the vSphere abilities granted by having shared storage. Which of the following is an appropriate solution?

- A. Use Storage DRS to create a cluster of the local datastores
- B. Use Storage vMotion to move the VMs to local datastores
- C. Implement Storage I/O Control on the local datastores
- D. vSphere Storage Appliance (VSA)

Correct Answer: D

QUESTION 5

Your manager wants to know how virtual machines are going to benefit the organization. What two statements accurately explain what virtual machines do? (Choose two.)

- A. Allow users to recover deleted files themselves.
- B. Reduce your application licensing costs.
- C. Provide higher up time than physical servers.
- D. Reduce the number of physical servers.

Correct Answer: BD
