-  **800,000+** Satisfied Customers

### QUESTION 1

You are a VMware architect designing a solution for several applications that are not cluster-aware, yet still must be constantly available. If these applications should stop, the manufacturing processes will need to be restarted, losing several hours of production. Which technology would provide a valid solution?

- A. Virtual Machine File System (VMFS)
- B. Fault Tolerance (FT)
- C. vCloud Director
- D. vSphere Data Protection (vDP)

Correct Answer: B

---

### QUESTION 2

Your systems administrator has recently expressed frustration while rolling back broken operating system patches on the physical servers in your environment. Which feature of a virtual machine could help mitigate the risk of installing patches in a VMs, by enabling you to roll back recent changes?

- A. vCenter Update Manager
- B. Templates
- C. Snapshots
- D. vCenter Operations Manager

Correct Answer: A

---

### QUESTION 3

You work for a small company that can't afford to upgrade the entire environment at once. Currently you have several small servers with internal storage on each. You desire to automate the environment as much as possible (using vMotion, DRS, HA, etc.) so you have time to work on other projects. Which of these choices will best meet these goals?

- A. Buy shared storage.
- B. Buy servers with more RAM.
- C. Buy servers with more CPUs.
- D. Upgrade the network to 10 GbE.

Correct Answer: D

---

#### QUESTION 4

Which VMware product assists in maintaining regulatory compliance?

- A. ESXi
- B. vCenter Server
- C. vCenter Operations Manager
- D. vCenter Configuration Manager

Correct Answer: C

---

#### QUESTION 5

You are the CIO. The VP of manufacturing tells you that an old DOS application is critical to the assembly line and that if it goes down, it takes 8 hours to restart the assembly line. The CEO has told you that is unacceptable and has asked you to find a solution that will prevent downtime. Which vSphere feature meets that requirement?

- A. Fault Tolerance (FT)
- B. High Availability (HA)
- C. Data Protection (DP)
- D. vMotion

Correct Answer: A
