### QUESTION 1

You have created two Alibaba Cloud VPCs in two different regions. To establish communication between these two VPCs via the Intranet, you can\_\_\_\_\_.

- A. Use the VRouter to create a new route table to enable the communication
- B. Use CEN to establish communication between VPCs
- C. Create a new access rule through the Security Group to enable the communication
- D. No operation is needed, as VPCs under the same account are connected through the Intranet by default

Correct Answer: B

---

### QUESTION 2

Different Alibaba Cloud VPCs are completely isolated from each other.

By default, the VPCs cannot communicate with each other over Intranet, but you can establish VPN connections via the Internet to achieve interconnection between VPCs.

- A. True
- B. False

Correct Answer: A

---

### QUESTION 3

Which of the following privilege is required to manually install Alibaba Cloud Security Center on the server?

- A. Database Access privilege
- B. Common user privilege
- C. System administrator privilege
- D. FTP service privilege

Correct Answer: B

---

### QUESTION 4

If you need to accelerate a certain domain name (such as abc.com) via Alibaba Cloud Content Delivery Network (CDN), you must add it to "CDN Domain Name List" in the CDN service. After added successfully, you will get a CNAME address. Next, you need to modify domain name resolution and direct the domain name (such as abc.com) to CNAME

address A. Which of the following is a NOT correct description of modifying domain name resolution?

- A. If your domain name (such as abc.com) is transferred to Alibaba Cloud in advance, and managed by the same Alibaba Cloud account, you can perform one-step resolution modification.
- B. The CNAME address allocated to the domain name (such as abc.com) will point to an IP address. This IP address resolving mechanism is intelligently managed by Alibaba Cloud CDN system.
- C. The DNS service provider used by the domain name (such as abc.com) must support intelligent resolution.
- D. The DNS service provider used by the domain name (such as abc.com) can be companies other than Alibaba Cloud.

Correct Answer: A

---

#### QUESTION 5

As a concept stem from cloud computing, cloud storage service provides on-demand storage and data services to users through a unified interface.

Which of the following characteristics about cloud storage are correct? (Number of correct answers: 4)

- A. Management and maintenance: To prevent emergent service termination, users need to know the underlying detail like how the data is archived in the resource pool.
- B. Service on demand Cloud storage has a huge resources pool, users can apply for and use the resources on demand.
- C. High reliability and availability: Provides very high reliability and availability through technologies like 3 redundant copies, automatic failure recovery, etc.
- D. Ultra-large scale: Data storage can reach TB or even PB level
- E. Transparent service: Provides the service through a single SDK
- F. High scalability Storage capacity can be dynamically scaled to meet the needs.

Correct Answer: BCEF
