### QUESTION 1

When should AEM MongoMK be chosen over TarMK on Author instances?

- A. To make maintenance easy
- B. To scale read access
- C. To scale instances horizontally
- D. To store more revisions

Correct Answer: C

---

### QUESTION 2

A large retail customer is building their ecommerce platform on AEM.

Several third-party vendors sell products through their site.

Those vendors need to review and verify the content close to production before the content goes live and the customer wants to provide them a restricted environment.

Which approach should the Architect recommend?

- A. Add a Publish (preview) Server and provide access
- B. Give third-party vendors access to the Author Server
- C. Use the Preview Capabilities of AEM Author Server
- D. Export content as PDF and share with the vendors

Correct Answer: C

---

### QUESTION 3

An AEM client also licenses Adobe Audience Manager and wants to provide content authors with the ability to create targeted experiences based on Audience Manager segments.

What should the Architect do to meet this requirement?

- A. Import Audience Manager segments via the OSGi bundle
- B. Configure the Adobe Target cloud configuration
- C. Apply the Audience Manager pixel in the AEM template header
- D. Enable the Experience Cloud ID Service

Correct Answer: B

---

#### QUESTION 4

A customer wants to allow logged in/authenticated users to mark pages delivered from AEM as their favorite. The favorites are stored and retrieved using REST API from AEM.

The POST REST API call to store favorites always fails with a 403-forbidden error.

Which two configurations should the Architect review? (Choose two.)

- A. Session timeout configuration
- B. CSRF token configuration
- C. Apache Sling Referrer Filter configuration
- D. Authentication handler configurations
- E. User Sync handler configuration

Correct Answer: BC

#### QUESTION 5

A client's site does not show the latest page content for some site visitors. The client has two data centers with each configured with a Dispatcher connected to two Publish machines. The site load issue only occurs intermittently for visitors from one of the data centers.

Which step should the Architect take to resolve the issue?

- A. Review the log files on the Author instances to determine if there are any template errors
- B. Check the Publish instance(s) attached to the Dispatcher associated to the impacted data center
- C. Disable caching on all impacted data centers Dispatchers to force the Publish machines to serve the page content
- D. Check the SSL certificate on the impacted data center's load balancer.

Correct Answer: B
