QUESTION 4

Why must Service Users be created?

A. To restrict mapping OSGi services to groups

B. To allow administration access to users

C. To restrict mapping OSGi services to admins

D. To allow mapping OSGi services to users

Correct Answer: D

QUESTION 5

You have created a solution architecture for a financial services company. After the design is completed, but before implementation starts, the company decides that rather than authenticating users against their internal LDAP server, they will authenticate using an externallyhosted SAML Identity Provider.

Which two architectural diagrams need to be revised to meet this change? (Choose two.)

A. Physical.

B. Conceptual.

C. Data Flow.

D. Logical.

Correct Answer: BC
