### QUESTION 1

A user is part of the Employees LDAP group synchronized with AEM. The same user is added to the authors group in AEM. The user is then removed from the Employees group on the LDAP server.

What is the result during the next synchronization with AEM?

- A. The user is removed from both the Employees and the AEM authors groups
- B. The user is removed from the authors group but not the Employees group in AEM
- C. The user is removed from the Employees group but not the authors group in AEM
- D. The user is not removed from either the Employees and the AEM authors groups

Correct Answer: A

---

### QUESTION 2

In a client's test environment AEM QA Testers from multiple groups and regions are testing and making requests to the AEM application. Due to the sheer number of hosts making connections, an Architect needs a quick and easy way to allow any hosts to make requests to the AEM application.

Which approach should the Architect take to meet this requirement for this non-production environment?

- A. Add GET as a Filter Method in the Apache Sling Referrer OSGi Configuration
- B. Use Allowlists instead of Blocklists in the Dispatcher Configuration
- C. Restrict Clients that can flush the cache in the Dispatcher Configuration
- D. Enable Allow Empty in the Apache Sling Referrer OSGi Configuration

Correct Answer: A

---

### QUESTION 3

A customer is migrating from their On-Premises AEM 6.4 instances to AEM as a Cloud Service. Next to the required code refactoring, a content migration of approximately 100,000 pages needs to be performed. The customer wants the content freeze period to be limited so that editors can continue to do content actions as long as possible.

Which two recommendations should the Architect make for the migration of the content pages? (Choose two.)

- A. Migrate the content using Lazy Content Migration approach
- B. Upscale the memory of the On-Premise AEM instance
- C. Migrate content deltas using a query-based packaging tool
- D. Ensure sufficient storage space on the On-Premise AEM instance

E. Migrate the content using the Content Transfer Tool

Correct Answer: BD

---

#### QUESTION 4

A client designs a new experience for one of their brand sites with the following parameters:

1.

The new experience should behave like a desktop application ?There is a lot of dynamic content in the app

2.

SEO and initial page load are a top concern for the client

3.

The client's marketing team needs to be able to author the content with a WYSIWYG editor Which approach should the Architect use to meet these requirements?

A. Use AEM as a headless CMS

B. Use the traditional server side components on the website

C. Use the SPA Editor SDK with Server Side Rendering

D. Create a set of API-driven components

Correct Answer: D

---

#### QUESTION 5

A customer wants to implement an AEM solution to serve localized content to several regional websites. Which AEM capability should the Architect recommend?

A. Use translation connector and Multi Site Manager

B. Use il8N API and Multi Site Manager

C. Use translation connector and il8N API

D. Use translation connector and translation workflows

Correct Answer: C

---
