QUESTION 1

A merchant is planning a camping for each of their 500 partners. Each will receive a unique set of prices for a catalog of 10,000 products.

How will performance be affected if each partner has their own website?

- A. The re-index process will become very slow
- B. The cache will consume all available disk space
- C. The sort by price feature will become very slow
- D. Static content deployment time will increase considerably

Correct Answer: B

QUESTION 2

A merchant has asked you to make their site WCAG 2.0 sections A and AA compliant.

What kind of compliance should the website meet?

- A. VAK compliance
- B. Accountability Compliance
- C. PCI Compliance
- D. Accessibility Compliance

Correct Answer: A

QUESTION 3

A merchant wants to download a list of packing slips. However, when the merchant tries to download the packing slips for a set of orders, there are no slips included for many of the orders they selected.

What does the merchant need to do to get packing slips for all of their orders?

- A. Create invoices for all of the selected orders.
- B. Specify the staff member who will pack the order
- C. Assign the orders to a specific warehouse
- D. Create shipments for all of the selected orders

Correct Answer: C

QUESTION 4

You are configuring a Magento Commerce website for any company with multiple websites. Magento admins must only have access to information pertinent to the specific website to which they are assigned.

How do you configure this in Magento?

- A. Modify the Role Resources for an existing admin Role.
- B. Install a custom module to provide this functionality.
- C. In each admin user's configuration, select their applicable websites in the Apply To field.
- D. Create a new admin Role with the Role Scopes limited to the applicable websites.

Correct Answer: A

QUESTION 5

You are building policies for a merchant to ensure PCI compliance website.

What two action items do you write in the policy to maintain PCI compliance?

- A. Purge all webserver visitor access logs after 30 days
- B. All critical patches must be applied within 30 days or less of their availability
- C. Admin users must have their own login credentials.
- D. Customers must be notified within 72 hours of a data breach.

Correct Answer: BC
