QUESTION 1

A Magento Commerce merchant is running a sale for an upcoming weekend. The merchant will offer 15% off site-wide and will show the original price and the sale price on each product through the site. The discount will take effect on Friday at midnight and end on Monday morning at 9am.

How is this achieved?

- A. Schedule an import of Special Prices and remove Prices and configure it to run at the appropriate time. Schedule another import to remove the Special Prices.
- B. Create a Catalog Price Rule and set Start Time and End Time in the Condition tab.
- C. Create a Cart Price Rule and a Scheduled Update with appropriate start Time and End Time.
- D. Create a Catalog Price Rule and a Scheduled Update with the appropriate start Time and End Time.

Correct Answer: C

QUESTION 2

A small merchant is using a legacy 3rd-party module to integrate with a payment provider. This module takes the cardholder information.

What changes must be made to the 3rd-party modules to reduce the scope of their Self-Assessment Questionnaire?

- A. Utilize a VPN connection to the payment provider.
- B. Store credentials encrypted in the database.
- C. Use the HTTPS protocol to connect to the payment provider.
- D. Utilize the payment provider's frontend iframe system.

Correct Answer: B

QUESTION 3

An ERP company asks you for recommendations which Magento API to use to integrate a client.

It is expected that at times large amounts of product and category changes will need to be pushed from the ERP to Magento.

What is the appropriate Magento API for this?

- A. The GraphQL API
- B. The synchronous REST API
- C. The asynchronous bulk API

D. The synchronous bulk API

Correct Answer: B

QUESTION 4

You have a customer with more than 5 million products and 2500 attributes. They are using an external system to push products to specific ecommerce sites. They would like to push 500,000 product to their Magento and these products include 900 attributes. 200 of which are text fields.

In addition to enabling flat catalog, which solution do you choose to meet their requirement?

- A. Convert the text field attributes to dropdowns or combine to description fields
- B. Use Magento websites with targeted traffic to specific stores
- C. Ask the client to only use 250,000 SKUs along with new attribute sets
- D. Convert attribute types to use a custom extension

Correct Answer: D

QUESTION 5

A retailer sells their products on their Magento Commerce site and in physical stores, they want to give customers the ability to purchase and use gift cards online or in-store, including cards which have already been sold through both channels.

Their in-store point-of-sale (POS) has built-in gift card capabilities and allows cards to be created or adjusted through an API.

Which three items must be included in the requirements for this project?

Choose 3 answers

- A. Existing Magento cards and balances must be imported into the POS
- B. An additional payment method must be added to the Magento checkout
- C. Existing in-store cards and balances must be imported into Magento
- D. Magento and the POS must share the same product catalog
- E. Gift card records in Magento and the POS must be synchronized when any gift card transaction takes place

Correct Answer: BCD
