### QUESTION 1

#### Scenario

You are a planner for a city planning department and you have an old friend who runs a planning consulting firm in the same city. Your friend submits a competitive proposal to work as a consultant for your department to you on Friday and while in your office, asks you to be her guest for dinner at a very fancy restaurant on Saturday evening. What might you do if you actually might have some influence in awarding the contract?

A. Answer: See the solution below

Correct Answer: A

If it is possible that you might influence the decision about awarding the contract, avoid the potential conflict of interest (Ethical Principles 2 and 3; Rules of Conduct 5, 8, 19). Avoid the conflict by telling your friend that you cannot meet with her socially until after the contract has been awarded, even if the contract will not be discussed during dinner.

---

### QUESTION 2

#### Scenario

You are a planner in a city that has recently opened a new shelter for homeless people. The shelter opens each evening during the winter and provides a place for people to sleep during the night in dormitory-style rooms with cots. Some community members would like the shelter closed because they feel that the large number of people who congregate on the sidewalks near the shelter as they wait for it to open pose a threat to public safety. Your planning director decides to address these concerns by classifying the shelter as a hotel. The planning director knows that the zoning ordinance specifies that a hotel must provide private sleeping quarters, which the shelter does not. By classifying the shelter as a hotel, the planning director is taking steps to close the shelter based on the ground that it is in violation of the zoning ordinance. What might you do first?

A. Answer: See the solution below

Correct Answer: A

You might gather additional information about the situation to be sure you fully understand it. You might find out if alternative locations for the shelter are feasible and if the shelter operators are aware of these alternatives. For example, you might locate a space where people may wait indoors until the shelter opens. You also might talk to the planning director about the situation so that you understand the reasoning behind the decision. You base your next move on your findings
