**QUESTION 1**

Ergonomics is the science of designing and arranging workspaces so that people and objects interact efficiently and safely. Lack of attention to ergonomics causes thousands of workers to suffer repetitive stress injury, eye fatigue, muscle soreness, and many other medical problems each year.

Adequate lighting, well-designed chairs, and clutter-free work areas contribute to effective ergonomic design. The opportunity to take short breaks every hour or two, especially for deskbound workers, is also helpful. It's also important for workers to avoid performing the same movements over and over for hours at a time. Variety in the type of work being done can decrease the chance of injury.

According to this passage, it's reasonable to assume that \_\_\_\_\_.

- A. employers should invest in ergonomic design to protect workers
- B. lack of ergonomic design isn't dangerous
- C. labor unions have opposed ergonomic design
- D. poor design is responsible for most employee accidents

Correct Answer: A

Explanation:

The passage makes it clear that lack of ergonomic design is dangerous, so Choice "lack of ergonomic design isn't dangerous" is incorrect.

Nothing in the passage supports Choice "labor unions have opposed ergonomic design."

Although the passage claims that lack of ergonomic design causes injury, nothing in the passage supports

Choice "poor design is responsible for most employee accidents."

---

**QUESTION 2**

Extreme care must be exercised to ensure proper handling and cleaning of soiled U.S. flags. A torn flag may be professionally mended, but a badly torn or tattered flag should be destroyed. When the flag is in such a condition that it's no longer a fitting emblem for display, destroy it in a dignified manner, preferably by burning.

According to this passage, torn flags should be \_\_\_\_\_.

- A. mended
- B. burned
- C. destroyed
- D. all of the above

Correct Answer: D

Explanation:

According to the passage a torn U.S. Flag can be professionally mended, but a severely torn flag should be destroyed. The preferred method of destruction is by burning.

### QUESTION 3

In privatization, the government relies on the private sector to provide a service. However, the government divests itself of the entire process, including all assets. With privatized functions, the government may specify quality, quantity, and timeliness requirements, but it has no control over the operations of the activity. Also, the government may not be the only customer. Whoever the government chooses to provide the services would likely provide the same services to others.

This paragraph best supports the statement that \_\_\_\_\_.

- A. the government must closely supervise privatized functions
- B. privatized functions consist of a mixture of government employees, military personnel, and private contractors
- C. privatized functions are those institutions that provide services only to a government agency
- D. privatized functions provide essential services to the government

Correct Answer: D

Explanation: Privatized functions operate independently of the government, making Choices "the government must closely supervise privatized functions" and "privatized functions consist of a mixture of government employees, military personnel, and private contractors" incorrect. The passage states that privatized functions may sell goods and services to other customers as well as the government, so Choice "privatized functions are those institutions that provide services only to a government agency" is also incorrect. Choice "privatized functions provide essential services to the government" is the correct answer, as privatized functions do perform essential services to government agencies.

### QUESTION 4

Specialized warships are relatively recent in origin. They have always been expensive to build and need to be manned by crews with specialized skills. Their construction and operation therefore requires a great deal of the ruler's wealth. The earliest form of fighting at sea was probably piratical as opposed to political; even a pirate needs resources to get his start. The first navies may or may not have been pirate hunters but navies, by definition, cost more than individual ships. Whatever perspective one takes, fighting on water has cost more than fighting on land from the beginnings.

According to this passage, navies \_\_\_\_\_.

- A. all started out as pirates
- B. are more expensive to have and maintain than individual ships
- C. normally cooperate with pirates to avoid attack
- D. are suitable to be built by specialists

Correct Answer: B

Explanation:

According to this passage, navies are more expensive to have and maintain than individual ships. The passage states that, "navies, by definition, cost more than individual ships."

---

#### QUESTION 5

Nucleic acids are found in all living organisms, from viruses to man. They received their name because of their discovery in the nuclei of white blood cells and fish sperm by Swiss physiologist Johann Mescher in 1869. However, it is now well established that nucleic acids occur outside the cell nucleus as well.

Nucleic acids are found \_\_\_\_\_.

- A. only in human cells
- B. only in viruses
- C. in all living cells
- D. only in the cell nucleus

Correct Answer: C

Explanation:

Nucleic acids are found in all living organisms, as stated in the first sentence of the passage.
