QUESTION 1

What is the architectural difference between virtual machines and containers?

- A. Containers abstract the underlying hardware.
- B. Virtual machines virtualize the operating system.
- C. Containers virtualize the operating system.
- D. Virtual machines are hardware independent.

Correct Answer: C

QUESTION 2

What is assured by executing a Technical and Delivery Assessment (TDA)?

- A. The technical quality of a solution
- B. Best practices are reviewed
- C. The solution meets total cost of ownership requirements
- D. Support calls will be unnecessary during implementation

Correct Answer: A

QUESTION 3

The customer is using an IBM SVC to manage storage capacity and plans to add some flash capacity to resolve some application performance concerns caused by month-end reporting operations. These

applications have acceptable performance for the rest of the month.

How should the customer automate the use of the flash capacity to manage these monthly workload peaks?

- A. Use IBM Spectrum Control Tiered Storage Optimizer.
- B. Use Volume copy with preferred write.
- C. Use IBM Storage Insights Pro
- D. Use IBM Spectrum Virtualize Easy Tier.

Correct Answer: D

QUESTION 4

A customer has two IBM Storwize V5010 systems installed at two locations and is considering IP data replication between the two sites. The IP link between locations is a shared resource and is not scalable.

Why would Global Mirror with Change Volumes be a beneficial solution for this customer?

- A. It keeps the relationship live even with limited bandwidth
- B. It uses required IP connection
- C. It shortens the Recovery Point Objective
- D. It achieves the Recovery Time Objective

Correct Answer: A

QUESTION 5

A customer has IBM Spectrum Virtualize at the primary location and IBM Storwize V7000 at the DR location. The customer purchased IBM VSC for both locations and wants to set up Global Mirror. What has to be done to the IBM Storwize V7000 system to support this functionality?

- A. Put SVC nodes with IBM Spectrum Virtualize in front of the IBM Storwize V7000
- B. Purchase license for Remote Mirror.
- C. Change the system layer to Replication.
- D. Add 10 GbE adapters to the IBM Storwize V7000

Correct Answer: C
