-  **365 Days** Free Update
-  **800,000+** Satisfied Customers

QUESTION 1

A customer is comparing a Power Systems solution with an x86 solution for big data analytics.

Which no-charge IBM analysis is available to justify the value of IBM Power Servers compared to x86 solutions?

- A. IT Economics Study (Eagle Study)
- B. Performance Navigator
- C. System Planning Tool
- D. Workload Estimator

Correct Answer: D

The IBM Systems Workload Estimator is a web-based sizing tool for IBM Power Systems, System i, System p, System x, IBM Flex Systems, and IBM PureFlex Systems. You can use this tool to size a new system, to size an upgrade to an existing system, or to size a consolidation of several systems. The Workload Estimator (WLE) allows measurement input to best reflect your current workload and provides a variety of built-in workloads to reflect your emerging application requirements. Virtualization can be used to yield a more robust solution. The Workload Estimator will provide current and growth recommendations for processor, memory, and disk that satisfy the overall client performance requirements

QUESTION 2

A customer with an AIX in-house SMT2 application on POWER6 would like to upgrade to POWER9. The customer would like to know the relative performance of the servers.

Which resource provides the SMT2 performance of the two systems?

- A. IBM Performance Management for Power Systems
- B. IBM Power Systems Performance Report
- C. IBM Power Systems Facts and Features
- D. IBM Systems Workload Estimator

Correct Answer: A

QUESTION 3

Which of the following statements is true regarding LPAR Mobility?

- A. An active AIX logical partition cannot be migrated from one server to another server by using the System Management Interface Tool (SMIT)

- B. An inactive logical partition may be migrated from one server to another server by using the Partition Migration wizard on HMC.
- C. The HMC command-line interface is required to migrate a Linux logical partition from one server to another server.
- D. A suspended logical partition cannot be migrated from one server to another server.

Correct Answer: B

QUESTION 4

Which of the following is a feature exclusive to PowerVM Enterprise Edition?

- A. PowerVC
- B. PowerSC
- C. Active Memory Sharing
- D. HMC Virtual Appliance

Correct Answer: C

QUESTION 5

Which of the following is true for systems virtualized with PowerVM?

- A. Adapters can be dedicated to LPARs.
- B. LPARs require virtual adapters.
- C. LPARs require shared memory.
- D. Cores must be shared between LPARs.

Correct Answer: A
