QUESTION 1

A portal change has been requested to add two sections, and one of the sections should display collapsed.

Given that the impacted portal is open in Portal Builder, which process(es) could be used?

- A. Only a user can determine which portal sections are collapsed.
- B. This scenario is not feasible because portal sections cannot collapse.
- C. Log-in as the system user in order to make the change. Select the Portal Sections library, place a check mark in the select box next to the two sections which are to be added, and click the Add To Portal button. For the section that is to be displayed collapsed by default, in the Portal Layout View select the Collapsed By Default check box. Select the Save button.
- D. Select the Portal Sections library, place a check mark in the select box next to the section which is to be added, and click the Add To Portal button. Place a check mark next to the next section to be added, and click the Add To Portal button. For the section that is to be displayed collapsed by default, in the Portal Layout View select the Collapsed By Default check box. Select the Save button.

Correct Answer: D

QUESTION 2

A workflow is running and processing a large set of records.

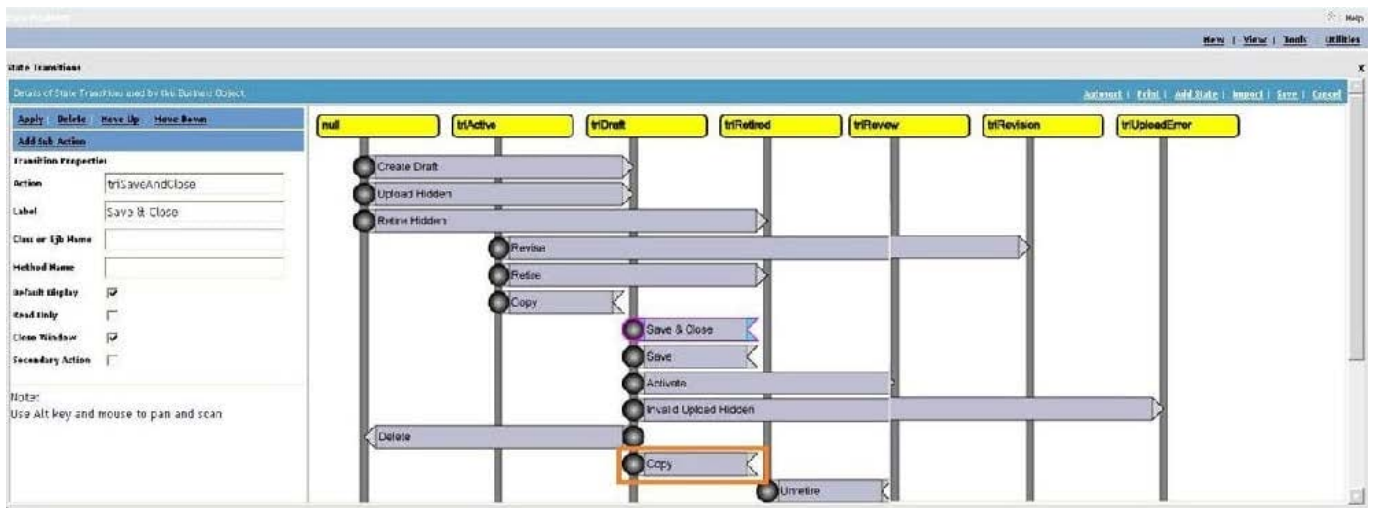

To see the instance for the currently processing record, which link would be selected from the workflow builder tool?

- A. Where Used
- B. List All Versions
- C. List Active Instances
- D. List Current Instance

Correct Answer: C

QUESTION 3

See the Exhibit below.

Which action is taken by a user to add a new Sub Action to the copy transition?

- A. Select Add Sub Action in the upper left of the screen.
- B. Select the box on the transition where the Copy text is located and click Add.
- C. Select the grey circle on the left of the Copy transition and click Add Sub Action.
- D. Select the box on the transition where the Copy text is located and click Add Sub Action.

Correct Answer: A

QUESTION 4

What is a unique feature of the Admin Group security group in TRIRIGA?

- A. The Admin Group is not visible in the TRIRIGA Security Manager by default and can only be accessed by using the System account.
- B. Whenever a change is made to the Admin Group the permissions for all Modules are reset to Full Access and all business objects (BO) are reset to Inherit From Parent.
- C. Permission settings for all Modules, BOs, Forms, Sections, and Actions in the Admin Group are defaulted to grant Full Access permissions and cannot be changed.
- D. Members of the Admin Group are automatically allowed to access all kinds of records and most tools in the platform environment whether they have been granted explicit permission to do so or not.

Correct Answer: D

QUESTION 5

Once the form with sections to be moved is open in Form Builder, which two statements are true?

- A. Moving a section will remove its section actions.

- B. Moving a section will change its security permissions.
- C. Moving the sections impacts the tab order of the fields.
- D. The form must be in a Revision in Progress state to move the sections.
- E. In order to access the section actions, the tab label must be selected in the navigation section.

Correct Answer: DE
