QUESTION 1

What is a service catalog as it relates to cloud computing services?

- A. It is a service request ticketing system.
- B. It is an integral part of deploying services in a cloud.
- C. It is a shopping cart format for requesting IT services and hardware.
- D. It is a mechanism to accept credit card payments for cloud services

Correct Answer: D

QUESTION 2

What are two business advantages of cloud computing?

- A. Fixed pricing: lowering fixed/variable costs and offering known pricing schemes.
- B. Planning: driving better data center planning for building more private data centers.
- C. Virtualization: abstracting physical resources away from their underlying hardware resources in order to improve IT control.
- D. Pervasiveness: improving customer experience by enabling services to be accessed from anywhere, anytime, and on any device.
- E. Virtualization: providing more efficient utilization of IT resources and reducing hardware cost through resource consolidations and economies-of-scale.

Correct Answer: CD

QUESTION 3

Which option describes a service managed by a cloud operator that supports databases without assuming traditional administration functions?

- A. SQL as a Service
- B. Database as a Service
- C. PlatformDB as a Service
- D. Infrastructure as a Service

Correct Answer: A

QUESTION 4

What are two statements valid about the IBM Mobile Platform?

- A. Is only available for Android devices.
- B. Is available as a pattern for any cloud provider.
- C. Can be deployed as a IBM BlueMix Platform Service
- D. Can be deployed as a pattern on a Pure Application System.
- E. Can only be deployed as a Service in a Traditional Data Center in customer's premise.

Correct Answer: AC

QUESTION 5

Which statement is true for virtualization?

- A. It runs on UNIX-based operating systems only.
- B. It is an interchangeable term for cloud computing.
- C. It separates physical hardware into various pool resources.
- D. It can only be applied in the context of hybrid and public clouds

Correct Answer: C
