QUESTION 1

How would Sifa, an IBM Sametime administrator, export/import an LTPA token ?

A. She would copy the LTPA key to the same directory location on each

B. She would exchange the certificate keys between the participating servers.

C. She would use Global Security Settings in the IBM WebSphere Integrated Solutions Console.

D. She would configure Trust Association Interceptor (TAI) for single sign-on between the participating servers.

Correct Answer: C

QUESTION 2

Jonathan wants to make the client installation package available from the IBM Sametime Welcome page. Which action should he perform?

A. Update the installer URL information in the install.xml file.

B. Use the ArchiveCreator tool to generate the installer archive compressed files.

C. Copy the entire contents of the network-install directory to server\\'s data directory.

D. Configure the IBM Domino HTTP server to use SSL with a self-signed test certificate.

Correct Answer: A

QUESTION 3

John has setup multiple custom policies and has assigned groups to them. He now wants to make sure his IT director receives the correct set.

How can John check to see what policies have been assigned to his IT director?

A. He should connect to the IBM Domino Administrator client and use the Find Active Policies search to display the list of policies assigned to his IT director.

B. He cannot. Instead he should have created a specific policy for his IT director only.

C. He should connect to IBM Sametime using his IT director\\'s credentials and test functionality.

D. He should connect to the Sametime System Console and use the Find Active Policies search to display the list of policies assigned to his IT director.

Correct Answer: D

QUESTION 4

David needs to change the LDAP hostname which the IBM Sametime IBM WebSphere-based servers are using.

Where does David need to make the change in the WebSphere Integrated Solutions Console?

A. Under Security- LDAP Configuration

B. Under Sametime System Console - Global Configurations LDAP

C. Under Security- Global Security- Federated Repository- Manage repository

D. Under Sametime System Console - Sametime Prerequisites - Connect to LDAP Servers. Add a new LDAP configuration and select "Set as current"

Correct Answer: D

QUESTION 5

Renovations Inc. has acquired a new division from ZetaBank and merged them into their LDAP directory so they can access IBM Sametime Instant Messaging. The LDAP administrator has sent this excerpt of the directory to the Sametime administrator to acknowledge the merge has been performed:

```
CN=John Doe,OU=Austin,OU=People,O=Renovations
CN=Jane Doe,OU=Dallas,OU=People,O=Renovations
CN=John Smith,OU=Research,OU=ZetaBank,OU=Acquisitions,O=Renovations
CN=Jane Roe,OU=Research,OU=ZetaBank,OU=Acquisitions,O=Renovations
```

Users from the ZetaBank acquisition are not able to log into Sametime Instant Messaging. What should the Sametime administrator do to correct the issue?

A. Reset the user passwords.

B. Modify the base DN for search.

C. Restart the Sametime Community Server.

D. Modify the search filter "Search filter for resolving person names".

Correct Answer: C
