#### QUESTION 1

Which of the following describes Key Performance Indicators (KPI)?

- A. Specific metrics, usually derived, by which a company measures its progress and success.
- B. Strategic goals, typically specified by executives, which describe the direction and objectives of the organization.
- C. Industry standards by which organizations measure themselves against others in their marketplace.
- D. Core, atomic level data items that provide input into higher level derived items which then appear on scorecards.

Correct Answer: A

---

#### QUESTION 2

Which combination of Cognos 8 components is considered the BEST fit for addressing the needs of company executives?

- A. Analysis Studio reports and Query Studio
- B. Metric Studio scorecards and Event Studio jobs
- C. Report Studio reports and Query Studio
- D. Metric Studio scorecards and Report Studio dashboards

Correct Answer: D

---

#### QUESTION 3

Which of the following is true regarding hierarchies and dimensions?

- A. Hierarchies help users understand the data through rollup levels within dimensions.
- B. All dimensions must have hierarchies.
- C. All hierarchies are defined by the inherent nature of their dimensional data.
- D. It is considered poor design to split a hierarchy across multiple dimensions.

Correct Answer: A

---

#### QUESTION 4

A user makes the following request: "I need to see the number of flights throughout the year that arrived or departed more than 15 minutes early or late by origin and destination airport, by carrier, and by time of day. I want to see if the number of flights delayed is greater for large carriers or small carriers." Based on this request, the following metrics have been identified: Flight count, and minutes early or late. Large carriers operate significantly more flights than small

carriers.

Which of the following additional metrics or calculations would provide the MOST value to the user?

- A. Average number of flights 15 minutes early or late
- B. Percentage of flights 15 minutes early or late
- C. Average minutes early or late
- D. Origin/Departure airport count

Correct Answer: B

---

#### QUESTION 5

Which of the following statements describes the critical differences between a managed report and a query?

- A. A managed report is intended to be run on a regular execution schedule from a background batch process whereas a query is run interactively.
- B. A managed report is authored by trained developers whereas a query is authored by either trained developers or end users.
- C. A managed report is intended to be run on a regular execution schedule whereas a query is intended to be authored and run on-demand.
- D. A managed report prompts users for run-time parameters whereas a query does not.

Correct Answer: C
