- C. a requirement to implement IBM Tivoli Endpoint Manager
- D. an understanding of IBM Tivoli Endpoint Manager capabilities
- E. knowledge of the IBM Tivoli Endpoint Manager development process
- F. knowledge of the organization in which IBM Tivoli Endpoint Manager will be implemented

Correct Answer: CDF

QUESTION 2

Which tool provides an end-user the ability to track their power usage and potential cost savings?

- A. Client-side Dashboard
- B. Power Management Dashboard
- C. Potential Savings User Interface
- D. Power Management Web Report

Correct Answer: A

QUESTION 3

What function does the setting BESRelay_Register_Affiliation_AdvertisementList perform?

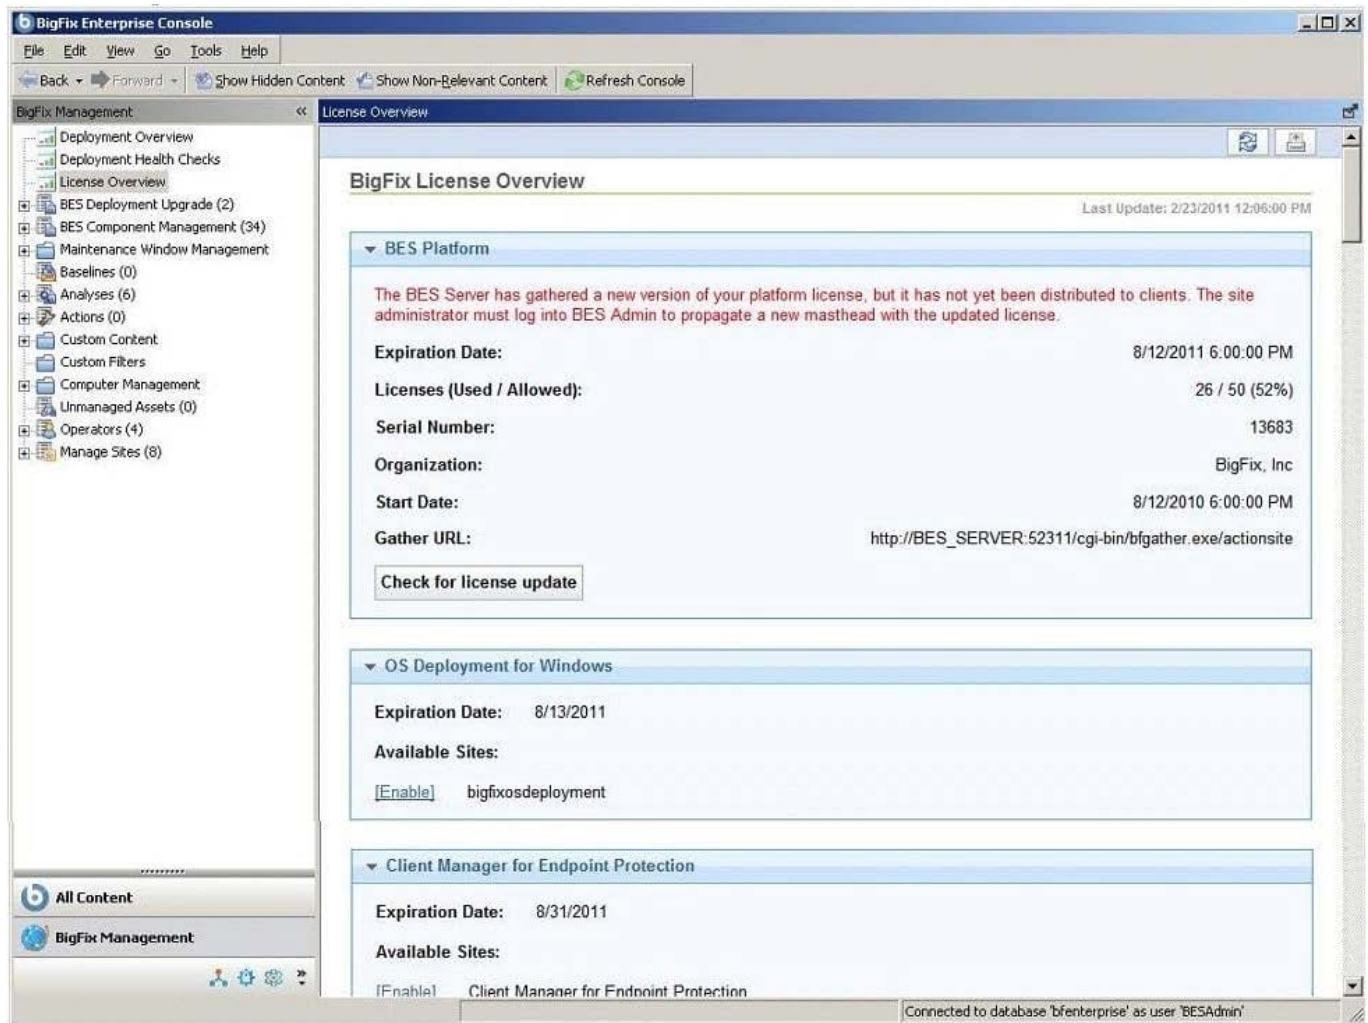

- A. It provides relays and servers the group they affiliate with.
- B. It provides a relay with the list of agents it is allowed to affiliate with.
- C. It provides agents, relays, and servers the list of relays to affiliate with.
- D. It provides agents with the location on the server that stores the advertisement list.

Correct Answer: A

QUESTION 4

Click the Exhibit button.

A master operator for an IBM Tivoli Endpoint Manager V8.1 (TEM) environment is examining the License Overview Dashboard and notices an error. How can this error be fixed?

- A. The TEM administrator must run the TEM Administration Tool; simply running the tool will clear the error message.
- B. The TEM administrator must run the TEM Administration Tool and export the masthead using the Masthead Management Tab.
- C. The TEM administrator must run the TEM Administration Tool and download a new masthead using the Masthead Management Tab.
- D. The TEM administrator must run the TEM Administration Tool; once opened TEM will ask to propagate the masthead automatically.

Correct Answer: D

QUESTION 5
