QUESTION 1

What does an earlier deployed action with a current state of Expired indicate?

- A. The action has run on the client for greater than 10 minutes and will be stopped.
- B. The source Fixlet of the action has been changed and needs to be synchronized.
- C. The action was run outside of the current maintenance window and will be delayed.
- D. The action has reached the Ends on value and will no longer be executed on the targets.

Correct Answer: D

QUESTION 2

How is a manual group defined?

- A. A Fixlet group that is created by an operator.
- B. A computer group whose members are static.
- C. A Fixlet group that can only contain Windows patches.
- D. A computer group that can only be used to deploy Windows patches.

Correct Answer: B

QUESTION 3

A user has 10 new Windows server computers that she wants to add to the existing Windows servers manual computer group. How can she add the new servers to this group?

- A. Tools > Add Computers to Manual Computer Group
- B. select all of the new Windows Server computers, right-click, and select View as Group
- C. view the Windows Servers computer group and click the button Add Computers to Group
- D. select all of the new Windows Server computers, right-click, and select Add To Manual Group

Correct Answer: D

QUESTION 4

Where in the IBM Endpoint Manager console can an operator find a custom analysis property definition?

- A. All Content domain > Analyses node, select the analysis in the list pane, and view the details tab in the work area.
- B. BES Support domain > Computers node, select the analysis in the list pane, and select the definitions tab in the work area.
- C. All Content domain > Computers node, select the computer from the list pane, and select the analysis result on the Summary tab.
- D. BES Support domain > Analyses node, select the computer from the list pane, and the definition will be next to the returned result.

Correct Answer: A

QUESTION 5

A new Fixlet was created in the site XYZ-Site, but after saving the Fixlet it is not seen in the site. Why?

- A. The Hide New Content option is enabled, so the Fixlet is hidden until it is more than 24 hours old.
- B. The Show New Content button is disabled, so the new Fixlet is not displayed until it is more than 24 hours old.
- C. The Hide Non-Relevant Content button is enabled, and since this is a new Fixlet there are no relevant systems making the Fixlet non-relevant.
- D. The Show Non-Relevant Content button is disabled, and since this is a new Fixlet there are no relevant systems making the Fixlet non-relevant.

Correct Answer: B
