QUESTION 1

When viewing the list of Fixlets and tasks, some are black and others are gray. What does this mean?

- A. The black entries are required to be deployed to at least one computer, and the gray entries are optional.
- B. The gray entries are required to be deployed to at least one computer, and the black entries are optional.
- C. The gray entries are relevant to at least one computer, and the black entries are not relevant to any computers.
- D. The black entries are relevant to at least one computer, and the gray entries are not relevant to any computers.

Correct Answer: D

QUESTION 2

A simple script requires a one-time deployment against an operator's managed endpoints. Without creating a Fixlet or task, how would the operator take action in the IBM Endpoint Manager console?

- A. click Tools > Single Action
- B. click Tools > Take Custom Action
- C. double-click an action taken previously and edit the Action Script
- D. right-click on the computers being targeted and select Take Action

Correct Answer: B

QUESTION 4

Which option is best suited for applying an operating system patch with the IBM Endpoint Manager (IEM) console?

- A. Run a wizard
- B. Take action on a task
- C. Take action on a Fixlet
- D. Run the IEM Configuration dashboard

Correct Answer: C

QUESTION 5

An administrator is required to take action on a Fixlet within a small maintenance window. What should be selected to permit the clients to download these components before the scheduled action time?

- A. On the Execution tab of the Take Action dialog, check the Stagger Download Time to Reduce Network Load box.
- B. On the Applicability tab of the Take Action dialog, check the Stagger Download Time to Reduce Network Load box.
- C. On the Execution tab of the Take Action dialog, check the Start Client Downloads Before Constraints are Satisfied box.
- D. On the Applicability tab of the Take Action dialog, check the Start Client Downloads Before Constraints are Satisfied box.

Correct Answer: C
