QUESTION 1

A company is planning to offer FTPS connection to its community of trading partners. They already have one server certificate in IBM Sterling B2B Integrator (SBI) that they want to use for the FTPS server in the production environment. In the

development environment they want to use a self-signed test certificate.

Where can the test certificate be created?

- A. Trading Partner > Digital Certificates > CA
- B. Trading Partner > Digital Certificates > Trusted
- C. Trading Partner > Digital Certificates > System
- D. Trading Partner > Digital Certificates > Cert Manager

Correct Answer: C

QUESTION 2

A developer has set up a File System Adapter to monitor a specific folder on the file system. When a file arrives in the folder, a Business Process (BP) will be executed. Where will the file payload be available to the rest of the BP?

- A. Primary Data
- B. Process Data
- C. Primary Document
- D. Process Document

Correct Answer: C

QUESTION 3

A company increased the number of CPUs allocated to IBM Sterling B2B Integrator (SBI). What should be done to take advantage of this increased processing capacity?

- A. Increase the Cache Size.
- B. Increase the Global Threads.
- C. Increase the Initial Heap Size.
- D. Add additional Perimeter Servers.

Correct Answer: B

QUESTION 4

When a file arrives it must be archived. The ProcessFileArrival and ArchiveFile Business Processes (BP) handle this. The requirement is for ProcessFileArrival to invoke ArchiveFile, but not wait for ArchiveFile to finish before further processing. Which invoke mode should be used?

- A. Inline
- B. Async
- C. Queued
- D. Deferred

Correct Answer: B

QUESTION 5

A customer does a very large volume of outbound FTP sessions. To help facilitate the throughput and provide load-balancing and fail over support, the customer created two FTP Client Adapter instances associated with two Perimeter Servers deployed on two separate servers. Which feature can be used by the customer to reference the two FTP Client adapter instances by a common name in the Graphical Process Modeler (GPM) or BPML?

- A. Service Group
- B. Adapter Group
- C. Transaction Group
- D. customer_overrides

Correct Answer: A
