QUESTION 1

Which two actions must be done to introduce a new LTO5 tape drive into an existing SCSI library with LTO2?

- A. define the library
- B. define a devclass
- C. define the LTO2 drives
- D. define the LTO5 drives
- E. define a storage pool utilizing a devclass for LTO2

Correct Answer: BD

QUESTION 2

An Oracle database is protected with IBM Tivoli Storage Manager (TSM) for Database and Oracle Recovery Manager. The Service Level Agreement defines that the logs must be written twice and immediately during the log archiving process. The storage pool destination is a sequential file pool and the data cannot be mirrored. How can this requirement be fulfilled?

- A. Use the Simultaneous Write function during migration.
- B. Use the Mirror option in the TSM API option file tdpo.opt.
- C. Use the Simultaneous Write function from the client during backup.
- D. Take the backup of the logs twice to different storage pool destinations.

Correct Answer: B

QUESTION 3

Which two steps are performed to create a migration path for client data to move from BACKUPPOOL to a new storage pool named BACKUP2?

- A. Update BACKUP2 and specify DESTINATION=BACKUPPOOL
- B. Update BACKUPPOOL and specify NEXTSTGPOOL=BACKUP2.
- C. Update BACKUP2, a sequential access copy storage pool, to send the data to BACKUPPOOL.
- D. Define a BACKUP2, a random access copy storage pool, to receive the data from BACKUPPOOL.
- E. Define BACKUP2, a sequential access primary storage pool, to receive the data from BACKUPPOOL.

Correct Answer: BD

QUESTION 4

What is the purpose of the command query systeminfo?

- A. It shows the system state of the OS.
- B. It collects information that helps to analyze the client problem.
- C. It shows the IBM Tivoli Storage Manager (TSM) options (client and server).
- D. It shows the complete TSM status (client and server).

Correct Answer: B

QUESTION 5

A new tape library has been received. The latest driver is installed and the new tape drives are listed as /dev/rmtX and /dev/smcX using the command:

```
1sdev -Cc tape
```

Before defining the device class what is the correct setup for the hardware?

- A. Install the Server Tool Library.
- B. The Tivoli Storage Manager server sets up the hardware automatically.
- C. Define the library, define the path to the library, define drive, and then define the path to the drive.
- D. Define the drive, define the path to the drive, define the library, and then define the path to the library.

Correct Answer: C
