### QUESTION 1

The customer requirement is to automate an e-mail being sent to the service desk team whenever a new Service Request (SR) is created. How should this be implemented?

- A. Manually send an e-mail from the SR once it is saved
- B. Modify the standard SR ITIL v3 process to send an e-mail
- C. Create a cron task that will send an e-mail for each SR in the status NEW
- D. Create an escalation that will send an e-mail for each SR in the status NEW

Correct Answer: D

---

### QUESTION 2

Which steps are required for a service desk agent to view all service requests reported by user J.DOE?

- A. Go to the Service Desk module, open the Global Search application, type J. DOE in the search field, and click Search.
- B. Go to the Security module, open the Users application, open the J.DOE record, and navigate to Service Requests tab.
- C. Go to the Service Desk module, open the Service Requests application, type =. DOE in the Reported By field, and click Enter.
- D. For security purposes, a default installation of IBM SmartCloud Control Desk allows service desk agents to see only service requests they have worked on.

Correct Answer: C

---

### QUESTION 3
