SATISFACTION GUARANTEED

QUESTION 1

The variable "product purchased" is your target variable:

it corresponds to your business issue. It is:

Note: There are 2 correct answers to this question.

A. Known for all values of the training dataset.

B. Not known for the values of the application dataset.

C. knows the main Linux administration commands (managing users, groups, and so on),

D. knows how to set up ODBC drivers on Linux systems.

Correct Answer: AB

QUESTION 2

The Decision Tree Each node in the tree displays: Note: There are 4 correct answers to this question.

A. The name of the expanded variable, for example Marital-status.

B. The categories on which the node population has been filtered, for example {Married-AFspouse;Nevermarried}

C. The Population of the node

D. The ratio of Positive Target (for nominal targets) or the Target Mean (for continuous targets)

E. The Usage entries are sparser and report a more global view of the activity on the server. They consist of one line per event on the following events: user connection, user disconnection, training a model, applying a model, saving a model.

Correct Answer: ABCD

QUESTION 3

What is the first phase of the CRISP- DM predictive modeling process? Note: There are 1 correct answers to this question.

A. Model building

B. Business understanding

C. Data understanding

D. Data preparation

Correct Answer: B

QUESTION 4

You can then generate models, capable of either explaining and predicting a phenomenon, or describing a dataset, in both cases, as a function of the previously defined target variable. This phase is called the training phase. Once the models have been generated, you can view and interpret their relevance and robustness using: Note: There are 2 correct answers to this question.

A. Performance indicators: the predictive power, which is the quality indicator, and the prediction confidence, which is the robustness indicator.

B. A variety of plots, including the profit curve plot.

C. knows how to set up ODBC drivers on Windows systems

D. has administration rights on the machine,

Correct Answer: AB

QUESTION 5

For formats are supported for the Date column: Note: There are 4 correct answers to this question.

A. datetime (ISO format: yyyy-mm-dd hh:mm)which has an hour-precision.

B. date (ISO format: yyyy-mm-dd) which has a day-precision.

C. Number(number, for example "seconds")

D. Java Runtime Environment installed on the client machine to connect to the server.

Correct Answer: ABCD
