### QUESTION 1

An InfoCube has been designed with 2 user-defined Dimensions containing 1 and 3 Characteristics respectively. All InfoObjects have the same level of master data value cardinality. How can you change the design of the InfoCube to optimize performance? Select the correct answer.

- A. Put all Characteristics in a single user-defined Dimension.
- B. Distribute the InfoObjects unevenly between the Dimensions.
- C. Make the single InfoObject the one Dimension the key of the InfoCube.
- D. Create 2 more Dimensions so that each has only 1 InfoObject.

Correct Answer: D

---

### QUESTION 2

What can you do to have two or more hierarchies with the same technical name? (2)

- A. Configure the hierarch as version-dependent
- B. Configure the hierarchy to have a time-dependent structure
- C. Configure the hierarchy with link nodes
- D. Configure the hierarchy as time-dependent
- E. Configure the hierarch as version-dependent

Correct Answer: D

---

### QUESTION 3

Which of the following are features of the Write-Optimized DSO? (2)

- A. They utilize the single Active Data Table
- B. They are intended to contain aggregated data
- C. They enable mass data loads
- D. They utilize a semantic (business) key for record uniqueness

Correct Answer: AC

---

### QUESTION 4

Which is the best way to model the object "Price?" There are 2 correct answers.

- A. If the price of an object changes slowly, model it as a navigational attribute.
- B. If the desired result is the price paid by a customer at the time of the Transaction, model price as a calculated Key Figure.
- C. Leave it out of the data model.
- D. If the price of an object changes slowly, model it as a display attribute.

Correct Answer: AB

---

#### QUESTION 5

You want postable nodes in a hierarchy to appear in multiple hierarchy branches. What action could you take to accomplish this? (2)

- A. Enter the postable nodes as Link Nodes
- B. Configure the hierarchy as time-dependent
- C. Create multiple similar hierarchies
- D. Configure the hierarchy with a time-dependent structure

Correct Answer: D
