QUESTION 1

Which of the following is often referred to as a smooth bore tank?

- A. Portable Tank
- B. Tank with a stainless steel interior
- C. Baffled liquid tanks
- D. Unbaffled liquid tank

Correct Answer: D

The correct answer is: Unbaffled liquid tank. A smooth bore tanker has no baffles. Smooth bore tanker are often used to deliver milk and food products because sanitation regulations forbid the use of baffles because of the difficulty in cleaning the inside of the tanks.

QUESTION 2

On older trailers, what will happen if the emergency and service air lines are crossed?

- A. Nothing will happen, they are designed to be interchangeable
- B. The trailer spring brakes will release
- C. Water and oil will build up in the air tanks
- D. You could drive away, but you will not have trailer brakes

Correct Answer: D

The correct answer is: You could drive away, but you will not have trailer brakes. Older trailers don't have spring brakes so if the air supply in the trailer air tanks has leaked away, there will be no emergency brakes.

QUESTION 3

When testing the air leakage rate (by turning off the engine and releasing the parking brake), what is an acceptable air loss rate?

- A. Less than 2 psi in one minute for single vehicles and less than 3 psi in one minute for combination vehicles.
- B. Less than 3 psi in one minute for both single and combination vehicles
- C. Less than 3 psi in one minute for single vehicles and less than 2 psi in one minute for combination vehicles.
- D. Less than 2 psi in one minute for both single and combination vehicles

Correct Answer: A

The correct answer is: Less than 2 psi in one minute for single vehicles and less than 3 psi in one minute for

combination vehicles. You should test for air leakage with a fully-charged air system. The loss rate should be less than two psi in one minute.

QUESTION 4

Why should you be in the proper gear before starting down a hill?

- A. Because it helps build up air pressure in your air tanks
- B. It is better than being in an improper gear
- C. Water can build up in your air tanks by not relying on the engine braking
- D. Brakes can fade or fail from excessive heat caused by using them too much and not relying on the engine braking effect

Correct Answer: D

QUESTION 5

Shippers package in order to Blank the material

- A. Mark
- B. Ship
- C. Distribute
- D. Contain

Correct Answer: D
