QUESTION 1

There are three domains of security covered by Article 32 of the GDPR that apply to both the controller and the processor. These include all of the following EXCEPT?

- A. Consent management and withdrawal.
- B. Incident detection and response.
- C. Preventative security.
- D. Remedial security.

Correct Answer: A

QUESTION 2

SCENARIO

Please use the following to answer the next question:

Liem, an online retailer known for its environmentally friendly shoes, has recently expanded its presence in Europe. Anxious to achieve market dominance, Liem teamed up with another eco friendly company, EcoMick, which sells accessories like belts and bags. Together the companies drew up a series of marketing campaigns designed to highlight the environmental and economic benefits of their products. After months of planning, Liem and EcoMick entered into a data sharing agreement to use the same marketing database, MarketIQ, to send the campaigns to their respective contacts. Liem and EcoMick also entered into a data processing agreement with MarketIQ, the terms of which included processing personal data only upon Liem and EcoMick's instructions, and making available to them all information necessary to demonstrate compliance with GDPR obligations.

Liem and EcoMick then procured the services of a company called JaphSoft, a marketing optimization firm that uses machine learning to help companies run successful campaigns. Clients provide JaphSoft with the personal data of individuals they would like to be targeted in each campaign. To ensure protection of its clients' data, JaphSoft implements the technical and organizational measures it deems appropriate. JaphSoft works to continually improve its machine learning models by analyzing the data it receives from its clients to determine the most successful components of a successful campaign. JaphSoft then uses such models in providing services to its client-base. Since the models improve only over a period of time as more information is collected, JaphSoft does not have a deletion process for the data it receives from clients. However, to ensure compliance with data privacy rules, JaphSoft pseudonymizes the personal data by removing identifying information from the contact information. JaphSoft's engineers, however, maintain all contact information in the same database as the identifying information.

Under its agreement with Liem and EcoMick, JaphSoft received access to MarketIQ, which included contact information as well as prior purchase history for such contacts, to create campaigns that would result in the most views of the two companies' websites. A prior Liem customer, Ms. Iman, received a marketing campaign from JaphSoft regarding Liem's as well as EcoMick's latest products. While Ms. Iman recalls checking a box to receive information in the future regarding Liem's products, she has never shopped EcoMick, nor provided her personal data to that company.

Why would the consent provided by Ms. Iman NOT be considered valid in regard to JaphSoft?

- A. She was not told which controller would be processing her personal data.
- B. She only viewed the visual representations of the privacy notice Liem provided.

- C. She did not read the privacy notice stating that her personal data would be shared.
- D. She has never made any purchases from JaphSoft and has no relationship with the company.

Correct Answer: C

QUESTION 3

When does the GDPR provide more latitude for a company to process data beyond its original collection purpose?

- A. When the data has been pseudonymized.
- B. When the data is protected by technological safeguards.
- C. When the data serves legitimate interest of third parties.
- D. When the data subject has failed to use a provided opt-out mechanism.

Correct Answer: A

QUESTION 4

The GDPR forbids the practice of "forum shopping", which occurs when companies do what?

- A. Choose the data protection officer that is most sympathetic to their business concerns.
- B. Designate their main establishment in member state with the most flexible practices.
- C. File appeals of infringement judgments with more than one EU institution simultaneously.
- D. Select third-party processors on the basis of cost rather than quality of privacy protection.

Correct Answer: B

QUESTION 5

What is the key difference between the European Council and the Council of the European Union?

- A. The Council of the European Union is helmed by a president.
- B. The Council of the European Union has a degree of legislative power.
- C. The European Council focuses primarily on issues involving human rights.
- D. The European Council is comprised of the heads of each EU member state.

Correct Answer: D
