QUESTION 4

SCENARIO Please use the following to answer the next question: Zandelay Fashion ('Zandelay') is a successful international online clothing retailer that employs approximately 650 people at its headquarters based in Dublin, Ireland. Martin is their recently appointed data protection officer, who oversees the

company's compliance with the General Data Protection Regulation (GDPR) and other privacy legislation.

The company offers both male and female clothing lines across all age demographics, including children. In doing so, the company processes large amounts of information about such customers, including preferences and sensitive financial

information such as credit card and bank account numbers.

In an aggressive bid to build revenue growth, Jerry, the CEO, tells Martin that the company is launching a new mobile app and loyalty scheme that puts significant emphasis on profiling the company's customers by analyzing their purchases.

Martin tells the CEO that:

(a) the potential risks of such activities means that Zandelay needs to carry out a data protection impact assessment to assess this new venture and its privacy implications; and (b) where the results of this assessment indicate a high risk in the absence of appropriate protection measures. Zandelay may have to undertake a prior consultation with the Irish Data Protection Commissioner before implementing the app and loyalty scheme.

Jerry tells Martin that he is not happy about the prospect of having to directly engage with a supervisory authority and having to disclose details of Zandelay's business plan and associated processing activities. What must Zandelay provide to the supervisory authority during the prior consultation?

- A. An evaluation of the complexity of the intended processing.
- B. An explanation of the purposes and means of the intended processing.
- C. Records showing that customers have explicitly consented to the intended profiling activities.
- D. Certificates that prove Martin's professional qualities and expert knowledge of data protection law.

Correct Answer: B

QUESTION 5

Which GDPR requirement will present the most significant challenges for organizations with Bring Your Own Device (BYOD) programs?

- A. Data subjects must be sufficiently informed of the purposes for which their personal data is processed.
- B. Processing of special categories of personal data on a large scale requires appointing a DPO.
- C. Personal data of data subjects must always be accurate and kept up to date.

D. Data controllers must be in control of the data they hold at all times.

Correct Answer: D
