QUESTION 3

The IT department at a growing law firm wants to begin using a third-party vendor for vulnerability monitoring and mitigation. The executive director of the law firm wishes to outline the assumptions and expectations between the two companies. Which of the following documents might be referenced in the event of a security breach at the law firm?

- A. SLA
- B. MOU
- C. SOW
- D. NDA

Correct Answer: A

QUESTION 4

Malicious users utilized brute force to access a system. An analyst is investigating these attacks and recommends methods to management that would help secure the system. Which of the following controls should the analyst recommend? (Choose three.)

- A. Multifactor authentication
- B. Network segmentation
- C. Single sign-on
- D. Encryption
- E. Complexity policy
- F. Biometrics
- G. Obfuscation

Correct Answer: AEF

QUESTION 5

An insurance company employs quick-response team drivers that carry corporate-issued mobile devices with the insurance company's app installed on them. Devices are configuration-hardened by an MDM and kept up to date. The employees use the app to collect insurance claim information and process payments. Recently, a number of customers have filed complaints of credit card fraud against the insurance company, which occurred shortly after their payments were processed via the mobile app. The cyber-incident response team has been asked to investigate. Which of the following is MOST likely the cause?

- A. The MDM server is misconfigured.
- B. The app does not employ TLS.
- C. USB tethering is enabled.
- D. 3G and less secure cellular technologies are not restricted.

Correct Answer: B
