QUESTION 4

A rapidly growing retail business is considering digital transformation. The first transformation target is a data center that hosts retail sales applications and the web services front-end. Although typically adequate, transaction response times

increase to unacceptable levels during peak holiday buying seasons.

What is the key driver for transformation of the retail sales system workload?

- A. Conversion from a siloed and inflexible IT infrastructure
- B. More efficient data center operation and maintenance
- C. Lowered operational and capital expenditures
- D. Higher transactional I/O processing efficiency

Correct Answer: A

QUESTION 5

Where does Digital Transformation start, and why?

- A. With research and development, to deliver cloud-based applications
- B. With the customer, to improve customer value
- C. With the customer management, to improve ROI
- D. With the IT department, to adopt new technologies and processes

Correct Answer: B
