QUESTION 3

DRAG DROP Refer to the Exhibit.

In an Isilon environment, match the connectivity type to the proper numerical port reference shown in the exhibit.

Select and Place:

Answer Area

Connectivity Type

Port Reference

Power Connectivity
Serial Connectivity
External Network Connectivity
Internal Network Connectivity

1
2
3
4

Correct Answer:

Answer Area

Connectivity Type

Port Reference

Serial Connectivity
Internal Network Connectivity
Power Connectivity
External Network Connectivity

QUESTION 4

You are configuring the network on a Isilon source cluster. The administrator wants to dedicate a new subnet for replication. Which consideration must be addressed for SyncIQ to work properly?

- A. SyncIQ must run on a static IP pool.
- B. SnapshotIQ must be licensed first.
- C. 10GbE ports must be used for replication
- D. SyncIQ must run on a dynamic IP pool

Correct Answer: C

QUESTION 5

A new Isilon administrator has created their first quota of 100 TB on a directory called "/ifs/Boston-zone/RnD". Both the Engineering and QA teams have access to this directory. The directory sits on a 4-node H400 node pool. Two weeks later, the administrator notices that the team's available disk space is decreasing faster than anticipated for the "/ifs/Boston-zone/RnD" directory.

What is the most likely cause for the decrease in disk space?

- A. Quota was configured to include overhead.
- B. SmartPools tiering is not enabled.
- C. Quota was configured as an Advisory quota.
- D. SmartPools global spillover is not enabled.

Correct Answer: A
