QUESTION 2

What is a characteristic of global commands in the VPlexcli?

A. Executable from any director

B. Control tasks running on all directors

C. Run exclusively from the root context

D. Accessible from all contexts

Correct Answer: D

Reference: https://www.dellemc.com/en-us/collaterals/unauth/technical-guides-support-information/products/storage-3/docu40001.pdf page 15

QUESTION 3

A storage administrator has been tasked with encapsulating 100 LUNs across five Oracle servers from an existing array to a VPLEX Metro cluster. The administrator can obtain the same outage window for all five servers and wants to streamline as much of the encapsulation process possible.

What can the administrator use to help achieve this task?

A. SolVe Desktop utility

B. VIAS Provisioning Wizard

C. Claim Storage Wizard

D. storage-tool compose

Correct Answer: D

QUESTION 4

To which VPLEX component does the SNMP management station connect to gather statistics?

A. VPLEX Witness

B. Management server

C. Director-A

D. Director-B

Correct Answer: B

QUESTION 5

DRAG DROP

What is the correct order of steps to migrate from an old array to a new one without disruption using VPLEX?

Select and Place:

VPLEX admin monitors progress of the migration; I/O to host continues	STEP 1
VPLEX discovers the new array and the admin creates migration target devices	STEP 2
Connect new storage array to VPLEX	STEP 3
Once volumes on the new array are fully synchronized, the admin commits the migration	STEP 4
VPLEX admin initiates mobility job(s)	STEP 5

Correct Answer:

	Connect new storage array to VPLEX
	Once volumes on the new array are fully synchronized, the admin commits the migration
	VPLEX discovers the new array and the admin creates migration target devices
	VPLEX admin initiates mobility job(s)
	VPLEX admin monitors progress of the migration; I/O to host continues
