### QUESTION 1

A customer has a cluster on which round robin link aggregation has been implemented. The customer reports that throughput has decreased since implementation. What is the likeliest explanation for the result?

- A. Packets may arrive out of order and need reordering at the client side.
- B. Packets are being lost on each node's second interface and need retransmission.
- C. The client side also needs to be configured to handle round robin link aggregation.
- D. The switch needs to reroute each alternating packet, introducing latency.

Correct Answer: A

---

### QUESTION 2

The customer has configured a file pool policy on their OneFS 7.0 cluster to place files over 30 days old in the archive tier with a file protection of N+3. The customer attempts to verify the file location and protection setting on a file matching the file pool policy criteria using the `isi get -DD` command. The file is located on the performance tier and has a requested protection setting of N+2:1.

What is the most likely cause of the issue?

- A. The order of the file pool policies
- B. The default policy overrides the file pool policy
- C. The AutoBalance job is paused
- D. The FlexProtect job failed to complete

Correct Answer: A

---

### QUESTION 3

What is the output for this command: `isi_radish -q?`

- A. Display drive information and firmware version.
- B. Display the CPU utilization of a node.
- C. Display all critical alerts for the cluster.
- D. Display the network utilization of a node.

Correct Answer: A

---

### QUESTION 4

What is the function of the SmartConnect service IP?

- A. Used by a DNS server to forward SmartConnect zone lookups to the cluster
- B. Defines the name that clients use when connecting to the cluster across the network
- C. Acts as a DNS server IP address to answer questions for top level domain
- D. Resolves cluster names only does not resolve external names

Correct Answer: A

---

#### QUESTION 5

When setting up SmartConnect initially in DNS, what type of record needs to be created for a SmartConnect Zone?

- A. NS
- B. MX
- C. A
- D. AAAA

Correct Answer: A
