QUESTION 1

Which daemon must be running on the Unisphere for VMAX server to collect performance data?

- A. storstd
- B. storapid
- C. storgnsd
- D. storsrvd

Correct Answer: A

QUESTION 2

What is the best practice for FA utilization in a VMAX3 array?

- A. 50% busy with two engines
- B. 50% busy with more than two engines
- C. 50% busy with one engine
- D. 50% busy with two or more engines

Correct Answer: A

QUESTION 3

A VMAX3 storage group is not SLO compliant. No changes to the application I/O profile have occurred.

Which factor may be responsible for the SLO compliance impact?

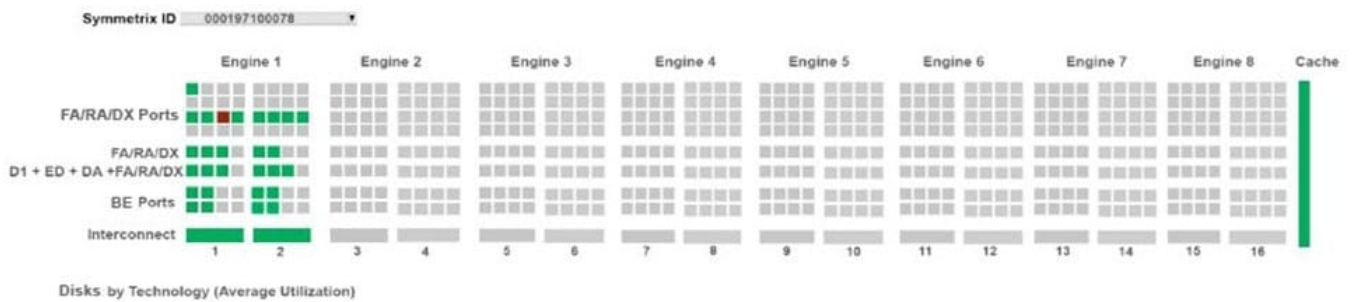

- A. storgnsd daemon was enabled
- B. Host queue depth setting was changed
- C. Increase write activity from the application
- D. Increased activity from other storage groups sharing the same ports/directions

Correct Answer: D

QUESTION 4

Based on the Array Utilization Dashboard shown in the exhibit, a frontend port is showing higher utilization on Director

1. How can this situation be corrected?

- A. Add another engine to provide for Frontend Emulation CPUs
- B. Redistribute the workload onto other available ports
- C. Increase cache on the engine
- D. Add additional capacity to support the frontend workload

Correct Answer: B

QUESTION 5

XtremIO is part of a company's FAST.X environment with a VMAX All Flash array and will remain as part of the configuration. The VMAX All Flash array is configured for SRDF as well. In addition, a large VMware environment is hosted on the XtremIO, however, the VMware datastore devices are not virtualized to the VMAX All Flash array.

If the company wants to have remote replication for the VMware devices, how can this be accomplished?

- A. Virtualize the VMware datastore devices using incorporation and add to the SRDF configuration
- B. Connect an additional VMAX3 or VMAX All Flash array to the XtremIO array and enable SRDF
- C. Virtualize the VMware datastore devices using encapsulation and add to the SRDF configuration
- D. Enable SRDF on the XtremIO array and add the VMware datastore devices to the configuration

Correct Answer: A
