QUESTION 1

DRAG DROP

A company has an on-demand self-service portal. What is the most likely sequence of events in the service catalog when an IaaS service is provisioned?

Select and Place:

Steps	Steps in Sequence
Interacts with integrated orchestration mechanism	Step 1
Allocates resources and triggers creation of the service	Step 2
Web-based catalog lists available services and options	Step 3
Uses predefined templates to provision services	Step 4

Correct Answer:

Steps	Steps in Sequence
	Web-based catalog lists available services and options
	Uses predefined templates to provision services
	Allocates resources and triggers creation of the service
	Interacts with integrated orchestration mechanism

QUESTION 2

An organization wants to provide IaaS capabilities in a hybrid cloud. They have the following requirements:

Each line of business must have access to its own services and templates Service templates should be as generic as possible Data encryption should be provided for only services that require it Each instance should use Microsoft Active Directory for authentication Each instance should have the latest OS patches applied Consumers should be given the ability to select which cloud to use for instance deployment

How can these requirements be addressed in a cloud design?

A. Add multiple pools and one template to the service catalog Provide orchestration workflows to create a tenant and then instantiate and customize instances Provide orchestration workflows to enable data encryption and authentication Enable a configuration manager policy for OS updates and pool placement

B. Configure multiple tenants in the service catalog Add a single template to the service catalog Provide orchestration workflows to instantiate and customize instances Provide orchestration workflows to enable data encryption and authentication

Enable a configuration manager policy for pool placement OS updates

C. Add multiple pools and one template to the service catalog Provide orchestration workflows to create a tenant and then instantiate and customize instances Provide orchestration workflows to enable data encryption and authentication Enable a configuration manager policy for OS updates

D. Configure multiple tenants and pools in the service catalog Add a template to the service catalog for each tenant Provide orchestration workflows enabling instance creations, customization and placement Provide orchestration workflows enabling data encryption and authentication Enable a configuration manager policy for OS updates

Correct Answer: B

QUESTION 3

You have been asked by a company to help drive IT efficiency, focusing specifically on direct, short-term activities. What would you recommend?

A. Begin development of a self-service portal for the business to develop and deploy applications

B. Attempt to consolidate vendors of hardware and software running in the environment by simplifying workloads

C. Identify applications with workloads that run infrequently or that require boutique services for migration to the cloud

D. Initiate a cloud comparison initiative to compare the price of competing cloud alternatives

Correct Answer: B

QUESTION 4

The CTO of a company has engaged your services to transform the IT department to run ono pre-assembled infrastructure. As the internal team lacks experience in this field, they are searching for simple infrastructure solution which IT can place in a single cloud layer on.

Which infrastructure solution would you direct them towards?

A. Converged infrastructure blocks

B. Turn-key racks

C. Application system racks

D. Web-scale appliances

Correct Answer: B

QUESTION 5

A company is assessing the cloud maturity of their existing capabilities. Which components should be analyzed to establish the baseline maturity?

A. Self-service, broad network access, resource pooling, rapid elasticity, measured service

B. Service catalog, plenty of bandwidth, virtualization, software defined networks, software defined storage

C. SLA, SaaS, PaaS, IaaS

D. Self-service, broad network access, measured service, SLA

Correct Answer: A
