QUESTION 1

How can you include log messages from more than one Firebox in a single report generated by Dimension? (Select two.)

- A. You cannot see report data in Dimension for more than one device.
- B. Create a device group and view the reports for that group.
- C. Create a report schedule that includes all the devices you want to include in the report.
- D. Export report data as a single PDF file for all the devices you want to include in the report.

Correct Answer: BC

QUESTION 2

With the policies configured as shown in this image, HTTP traffic can be sent and received through branch office VPN tunnel.1 and tunnel.2.

Order /	Action	Policy Name	Policy Type	From	To
1	✓	tunnel1-http.out	HTTP	Any	tunnel 1
2	✓	tunnel1-http.in	HTTP	tunnel 1	Any
3	✓	WatchGuard Web UI	WG-Fireware-X...	Any-Trusted, Any-Optional	Firebox
4	✓	Ping	Ping	Any-Trusted, Any-Optional	Any
5	✓	WatchGuard	WG-Firebox-Mgmt	Any-Trusted, Any-Optional	Firebox
6	✓	Outgoing	TCP-UDP	Any-Trusted, Any-Optional	Any-External
7	✓	BOVPN-Allow.out	Any	Any	tunnel.2, tunnel 1
8	✓	BOVPN-Allow.in	Any	tunnel.2, tunnel 1	Any

- A. True
- B. False

Correct Answer: B

QUESTION 3

What settings must you device configuration file include for Gateway AntiVirus to protect users on your network? (Select two.)

- A. Configure a policy to use a proxy action that has AntiVirus settings configured.
- B. Install the Gateway AntiVirus server on your network.
- C. Configure Gateway AntiVirus settings for a proxy action.
- D. Disable automatic signature updates.
- E. Decrease the scan limits

Correct Answer: AC

When you enable Gateway AntiVirus, you must set the actions to be taken if a virus or error is found in an email message (SMTP or POP3 proxies), web page download or upload post (HTTP proxy), or uploaded or downloaded file (FTP proxy). When Gateway AntiVirus is enabled, it scans each file up to a specified kilobyte count. Any additional bytes in the file are not scanned. This allows the proxy to partially scan very large files without a large effect on performance.

QUESTION 4

Match each type of NAT with the correct description:

Conserves IP addresses and hides the internal topology of your network. (Choose one)

- A. 1-to1 NAT
- B. Dynamic NAT
- C. NAT Loopback

Correct Answer: B

Dynamic NAT is also known as IP masquerading. With dynamic NAT many computers can connect to the Internet from one public IP address. Dynamic NAT gives more security for internal hosts that use the Internet, because it hides the IP addresses of hosts on your network.
