### QUESTION 1

What attribute allows you to cause a play to stop based on a certain failure threshold?

- A. failure\_threshold
- B. serial
- C. acceptable\_failure\_percentage
- D. max\_fail\_percentage

Correct Answer: D

The max\_fail\_percentage will only allow a certain percent of a batch to fail before marking the play failed.

---

### QUESTION 2

Consider the following playbook:

```
# playbook name: /home/ansible/web.yml
```

```
-hosts: webserver become: yes
```

```
tasks:
```

```
-name: edit file 1
```

```
lineinfile:
```

```
path: /var/www/content.html line: "{{ text }}" tags:
```

```
-content
```

```
-name: edit file 2
```

```
lineinfile: path: /var/www/index.html
```

```
line: "{{ text }}"
```

```
tags:
```

```
-web
```

```
-name: edit file 3 lineinfile: path: /var/www/etc.html line: "{{ text }}" tags: - content - misc
```

Which use of the ansible-playbook command on the provided playbook will result in ONLY editing the file /var/www/index.html?

- A. ansible-playbook /home/ansible/web.yml
- B. ansible-playbook /home/ansible/web.yml --skip-tags web

C. ansible-playbook /home/ansible/web.yml --skip-tags content

D. ansible-playbook /home/ansible/web.yml --tags content

Correct Answer: C

This command skips the two tasks editing other files and only allows the task that is editing /var/www/index.html to run.

---

### QUESTION 3

Create a playbook called timesync.yml in /home/sandy/ansible using rhel system role timesync. Set the time to use currently configured ntp with the server 0.uk.pool.ntp.org. Enable burst. Do this on all hosts.

Correct Answer:

See the for complete Solution below. Solution as:

```
- name: use rhel system role
hosts: all
roles:
  - rhel-system-roles.timesync
timesync_ntp_servers:
  - hostname: 0.uk.pool.ntp.org
  iburst: yes
```

### QUESTION 4

By default, how many times can a role be applied during a play?

A. Once, no matter the parameters provided.

B. As many times as necessary, no matter the parameters.

C. Once, presuming it is only applied with a single set of parameters.

D. As many times as necessary, presuming the `single\_run` attribute is set to false.

Correct Answer: C

A role given only a single set of parameters will only be applied by Ansible one time in a play.

---

### QUESTION 5

What module is used to deploy a template?

- A. File
- B. Copy
- C. Template
- D. Deploy

Correct Answer: B

The template module is designed to process and deploy template files.
