1.

The playbook should replaee any existing content of/etc/motd in the following text.

2.

Use ansible facts to display the FQDN of each host

3.

On hosts in the dev host group the line should be "Welcome to Dev Server FQDN".

4.

On hosts in the webserver host group the line should be "Welcome to Apache Server FQDN".

5.

On hosts in the database host group the line should be "Welcome to MySQL Server FQDN".

Correct Answer:

See the for complete Solution below.

/home/sandy/ansible/apache.yml

```
---

- name: http
  hosts: webservers
  roles:
    - sample-apache
```

/home/sandy/ansible/roles/sample-apache/tasks/main.yml

QUESTION 2

State whether the following statement is true or false.

A template can only use 1 variable.

A. True

B. False

Correct Answer: B

You can use multiple variables in templates.

QUESTION 3

Which keywords will cause a role to be applied in a playbook? (Choose all that apply.)

A. use_role

B. include_role

C. load_role

D. role

Correct Answer: BD

The import_role keyword dynamically includes a role within a play. The role keyword statically includes a role within a play.

QUESTION 4
