QUESTION 3

Universal Containers (UC) has a B2C customer department that uses person accounts to track and manage all B2C customers. UC has set up a B2C site using Salesforce Experience Cloud. The VP of B2C business wants to enable self-registration on the portal so customers can create their own user accounts.

What should the Experience Cloud consultant at UC recommend so that the new users self-registering on the B2C site are captured as person accounts In Salesforce?

- A. Create a custom self-registration page and Apex handler that creates a person account for each user self-registering on the portal.
- B. Use the standard self registration configuration under Experience Workspace and leave the default Account field empty.
- C. Use the standard self-registration configuration under Experience Workspace that assigns users to a default business account, and then build a trigger on Account to create person accounts for each user.

D. A Restrict the Account record type access to Person Account record type only for the Site Guest User, so any account created is by default a person account.
