QUESTION 1

You recently started an engagement with an organization that is also using Google Workspace. The engagement will involve highly sensitive data, and the data needs to be protected from being shared with unauthorized parties both internally and externally. You need to ensure that this data is properly secured.

Which configuration should you implement?

- A. Turn on external sharing with whitelisted domains, and add the external organization to the whitelist.
- B. Provision accounts within your domain for the external users, and turn off external sharing for that Org.
- C. Configure the Drive DLP rules to prevent the sharing of PII and PHI outside of your domain.
- D. Create a Team Drive for this engagement, and limit the memberships and sharing settings.

Correct Answer: D

Explanation: <https://support.google.com/a/users/answer/9310352#1.1>

QUESTION 2

Your cyber security team has requested that all email destined for external domains be scanned for credit card numbers, and if found, the email must be encrypted using your cloud-based third-party encryption provider. You are responsible for configuring to meet this request.

What should you do?

- A. Create a content compliance rule on outbound mail and internal-sending mail using the predefined rule for credit card numbers, and add a custom header that your third-party encryption provider can scan for and encrypt.
- B. Create a content compliance rule on outbound mail using the predefined rule for credit card numbers, and check "Encrypt message if not encrypted".
- C. Create a content compliance rule on outbound mail using the predefined rule for credit card numbers, and add a custom header that your third-party encryption provider can scan for and encrypt.
- D. Create a content compliance rule on outbound mail using the predefined rule for credit card numbers, and check "Change route" to send to your third-party encryption provider to encrypt.

Correct Answer: D

QUESTION 3

Security and Compliance has identified secure third-party applications that should have access to Google Workspace data. You need to restrict third-party access to only approved applications. What two actions should you take? (Choose two.)

- A. Whitelist Trusted Apps

- B. Disable the Drive SDK
- C. Restrict API scopes
- D. Disable add-ons for Gmail
- E. Whitelist Google Workspace Marketplace apps

Correct Answer: AC

QUESTION 4

Your company has received help desk calls from users about a new interface in Gmail that they had not seen before. They determined that it was a new feature that Google released recently. In the future, you will need time to review the new features so you can properly train employees before they see changes.

What action should you take?

- A. Company Profile > Profile > New User Features > Enable "Scheduled Release"
- B. Apps > Google Workspace > Gmail > Uncheck "Enable Gmail Labs for my users"
- C. Company Profile > Profile > New User Features > Enable "Rapid Release"
- D. Device Management > Chrome > Device Settings > Stop auto-updates

Correct Answer: A

QUESTION 5

Your company recently decided to use a cloud-based ticketing system for your customer care needs. You are tasked with rerouting email coming into your customer care address, `customer@your-company.com` to the cloud platform's email address, `your-company@cloudprovider.com`. As a security measure, you have mail forwarding disabled at the domain level.

What should you do?

- A. Create a mail contact in the Google Workspace directory that has an email address of `your-company@cloudprovider.com`
- B. Create a rule to forward mail in the `customer@your-company.com` mailbox to `your-company@cloudprovider.com`
- C. Create a recipient map in the Google Workspace Admin console that maps `customer@your-company.com` to `your-company@cloudprovider.com`
- D. Create a content compliance rule in the Google Workspace Admin console to change route to `your-company@cloudprovider.com`

Correct Answer: C

Explanation: Disable automatic forwarding <https://support.google.com/a/answer/2491924?hl=en> Redirect incoming messages to another email address <https://support.google.com/a/answer/4524505?hl=en> (Optional) To send the message to the original recipient as well as the new address, under Routing options, check the Also route to original destination box.
