Correct Answer: A

---

#### QUESTION 3

Which of the following options is not an advantage of cloud hard drives?

- A. Rich specifications
- B. Can be used alone
- C. Highly reliable
- D. Good ease of use

Correct Answer: B

---

#### QUESTION 4

Which of the following are advantages of SFS over traditional shared file storage? (Choose all that apply.)

- A. Superior performance and reliability: SFS enables file system performance to increase as capacity grows, and delivers high data durability to support rapid business growth.
- B. Seamless integration: SFS supports NFS and CIFS protocols. With these standard protocols, a broad range of mainstream applications can read data from and write data to a file system.
- C. File sharing: ECSs in AZs of the same region can access the same file system concurrently and share files.

D. Easy operation and low costs: In an intuitive GUI, you can create and manage file systems with ease.

Correct Answer: AD
