QUESTION 1

In which Hitachi Device Manager screen is the Allocate Like Volumes feature available?

- A. Hosts
- B. Allocate Storage
- C. Dynamic Provisioning
- D. Allocate Volumes to Multiple Hosts

Correct Answer: A

QUESTION 2

Which two operations would you perform on a VSP using the Element Manager feature of Hitachi Device Manager? (Choose two.)

- A. Create a system disk.
- B. Generate storage utilization reports for groups of storage systems.
- C. View the configuration of a storage system.
- D. Update a storage system microcode.

Correct Answer: AC

QUESTION 3

From a recently installed host, you want to use the Hitachi Device Manager (HDvM) CLI to manage and configure Host Group security. What must be done before you can use HDvM CLI commands?

- A. Download and install the CLI software from the HDvM server using the Web Client.
- B. Configure the CLI software on your client computer in "management mode".
- C. Set the LUN security option to "enable" during the creation of the host storage domain.
- D. Set the LUN security option to "enable" in the CLI properties file of your client computer.

Correct Answer: A

QUESTION 4

Before starting provisioning operations in Hitachi Device Manager, what are three requirements? (Choose three)

- A. The host must be physically connected to the SAN.

- B. The port on the storage system must be configured.
- C. Any world-wide node name (WWNN) must be configured for the host.
- D. The host must appear in the host view.
- E. The switch must be added to Device Manager.

Correct Answer: ABD

QUESTION 5

A customer is planning to purchase Hitachi modular systems to be virtualized behind their VSPs in an environment with Linux, Windows and VMWare servers. Which two benefits will the Hitachi Command Suite offer to this customer? (Choose two.)

- A. a specific set of management programs for each Hitachi storage system type
- B. a unified management framework across all Hitachi storage platforms
- C. interoperability software modules converting unstructured data to structured data
- D. management of file, block and content data under a common set of tools

Correct Answer: BD
